

VOLUME 47.

VICTORIA, B. C., TUESDAY, JUNE 22, 1909.

NO. 141.

BISHOP'S LETTER READ AT COUNCIL

COMPLAINS OF GAMING AT WILLOWS TRACK

Matter Referred to Fair Association After Short Discussion.

The race meet, was brought to the attention of the city council last night in a letter from Bishop Perrin which was read. The bishop stated that he had been informed that a large amount of professional betting is going on at the races. He was aware that according to the criminal code betting at race tracks is not an offence, but as the track belongs to the city, and had been leased to a club on the express condition that no gaming should be allowed, he asked that the city council be consulted as to whether the betting now being allowed was not a breach of the engagement. Bishop Perrin said he was constantly being told that horse-racing was a harmless sport if betting was eliminated, and he believed it would be interesting to see whether the sixty days' racing would be carried on.

Ald. Fullerton asked if it was true, as many citizens allege, that the grounds had been leased with a condition that there was to be no gaming. He was constantly having this assertion made to him.

"No," replied Ald. Henderson; "there is a condition there shall be no liquor sold."

"There is no gambling at the Willows; it is betting," remarked an alderman.

On motion of Ald. McKeown and Fullerton the letter was received and referred to the Agricultural Association, it not having anything to do with the council.

Complaints Against Officials.
J. A. Alkman complained on behalf of A. B. Angus, electrician, that A. Daly, inspector of the city electric light department, was circulating a statement that he was incompetent. Mr. Alkman suggested that the inspector should be called upon to account, and, if necessary, discharged from the city employ.

Mr. Daly will be asked to report as to the matter.

Another complaint against a civic employer was contained in a letter from Wm. Dockings, a rancher in Highland district. He stated that he had purchased a cow at the city pound for \$25, but it disappeared and he found it with the original owner, A. Jakes, who refused to give it up on the ground that the sale was an illegal one. The pound-keeper refused to return his money.

Ald. Hubner said another side of the story he had heard was that the pound-keeper sold the cow to a boy for \$10, bought it back and re-sold it to Mr. Dockings for \$25.

The pound-keeper and Mr. Dockings will be asked to appear before council at 7.30 next Monday night, the aldermen considering that the matter was one for inquiry.

Tenders Opened.
Tenders for a 750 gallon fire engine were received from the following firms and referred to the fire wardens, city purchasing agent and fire chief: Hutchinson Bros., motor driven engine, \$7,500, \$9,650 and \$7,585; Waterson Engine Company, St. Paul, \$10,750; A. G. Long, \$7,387; Waterson Engine Company, Brantford, \$5,000; Gorham Rubber Company, Seattle, \$7,500; Merryweather Company, London, Eng., \$8,350 and \$9,500; W. C. Winterburn, \$5,300.

Tenders for exhaust pipe for the salt water high pressure system were received from the following firms and referred to the city purchasing agent, city electrician and Alderman Henderson to award the contract: Robertson Works, \$180; Andrew Gray, \$230; Victoria Machinery Depot, \$230; Ramsey Machine Works, \$200; Hutchinson Bros., \$215.

The finance committee reported on the claim of the B. C. Anti-tuberculosis Society, for the balance of a grant of \$2,500, that only \$1,500 had been voted, and that this had been paid to the committee recommended that \$1,000 be paid to the Development League on account.

Senator MacDonald complained of traffic being congested on Government street, and considered that it needed regulation, especially as to motor vehicles. He suggested that motor vehicles should be prohibited from using Government street, between Humboldt and Johnson streets, between 9 a.m. and 7 p.m.; that wagons with heavy tires and drawn by horses with sharp shoes should be kept off the street entirely and sent round by Wharf or Douglas streets, and that no vehicle should be permitted to turn a corner at more than four miles an hour.

The letter was received and filed away.

DEGREES FOR PRESS DELEGATES
London, June 22.—The honorary degree of LL.D. was conferred yesterday by the university of Glasgow on six of the imperial press delegates as follows: J. A. Macdonald, of Toronto; Sir Hugh Graham, of Montreal; C. S. Cunningham, of Melbourne; F. W. Ward, of Sydney; Stanley Reed, of Bombay, and Maitland Park, of Capetown. Lord Rosebery is chancellor of the university, and Lord Curzon is rector.

FATMAST FLEES WITH FUNDS.
Tomak, Russia, June 22.—After drawing \$80,000 of the regimental funds on forged orders, the paymaster of the Twenty-Sixth East Siberian Rifles has fled, and all efforts to apprehend him have so far failed.

FOR SANATORIUM.

Lorne McGibbon, of Montreal, Will Give \$125,000 For Institution.

Montreal, June 22.—It was learned yesterday that Lorne McGibbon, a leading business man of this city, had decided to give \$125,000 for the erection and equipment of a sanatorium for tuberculosis treatment, to be erected at St. Agathe, in the Laurentian mountains. Mr. McGibbon was a couple of years ago a sufferer from the disease, and by advice of physicians spent much time in the Adirondacks, with the result that he was cured, and he is now interested in doing something for those less fortunately placed than himself.

CANOE FATALITY.

Mine Centre, Ont., June 22.—While a number of the Mine Centre Lumber Company's employees were bathing in Turtle lake here on Sunday evening two young men, named B. Jenkins and J. Brandon, went out in a birch bark canoe which capsized. Neither of them could swim, but Brandon managed to keep afloat by hanging on to the canoe until he was rescued. Jenkins was drowned in eight feet of water. He was about 28 years of age, and his home is near Hamilton, Ont.

SUNDAY BY-LAW FINALLY PASSED

MAY BE PROPOSAL FOR RECONSIDERATION

Several Aldermen Are Opposed to Its Provisions—Brewery Matter.

The final stages were given to the Sunday closing by-law at last night's council meeting. The motion was put regularly enough by the acting mayor, but several of the aldermen, including those who are opposed to the proposed regulations, were not paying close attention, and the motion had been declared carried before they knew what was doing.

Ald. Turner and Ald. Hubner were especially indignant, the latter having had a motion for reconsideration to committee ruled out of order a few minutes before on the ground that when the motion for reconsideration and final passing came up he could say whatever he had to say. The measure is one which is strongly opposed by several members of the council, and it is quite likely that a notice of motion will be posted for its reconsideration.

The city solicitor, in advising the council that it was open to it to finally pass the Sunday closing by-law, stated: "As regards the imposing of conditions on licensees, while it is our opinion, supported by other members of the profession, that council has authority to do so it must be borne in mind that this is new legislation and will undoubtedly be tested in the courts of law."

"I take it from this that the city solicitor has grave doubts as to the legality of this by-law," remarked Ald. Turner. "As to the obligation to make a lengthy application every time a license is applied for we were informed that this had been requested by the collector, and I was rather called down because I questioned the need for it. I am informed that neither the collector nor the treasurer asked for any such thing, in spite of the fact that the city solicitor stood up here and told us it was requested by the collector."

City Solicitor Mann denied that he had said so.

"The collector asked me if the newspaper reports were correct, and I told him they were," continued Ald. Turner. "He said he never asked for this provision, and it would give him a lot of trouble, for he would have to put on another man. Now the city solicitor says he did not say so."

Mr. Mann repeated his denial, but several aldermen said they had heard him. The newspaper reports also bear Mr. Turner out.

This communication was considered early in the evening, long before the by-law came up.

The Barons Bible class wrote recommending the Sunday closing by-law, and H. Stadthagen to the opposite effect. The latter pointed out that this by-law would lose to dealers and to the city at least \$2,000 a Sunday left here by visitors, "all because 108 cranks were in the majority in favor of closing."

"All except the goody people are working hard to get people to our beautiful city," he added. These communications were filed.

(Concluded on page 12.)

LANDSLIDE CAUSES WRECK ON RAILWAY

Twenty-five Persons Sustain Injuries—Express and Baggage Cars Burn.

(Times Leased Wire.)
Whitefish, Mont., June 22.—Twenty-five passengers were more or less injured when the west-bound Oriental Limited train on the Great Northern went into the ditch near Ural, on the Kootenai river yesterday. The accident was caused by a landslide which covered the track. Following the wreck, the express and baggage cars caught fire and were burned. Several of the coaches were badly damaged, but fortunately none of the passengers sustained fatal injuries.

WATER SUPPLY FOR OAK BAY

ESQUIMALT COMPANY HAS GIVEN OPTION

Municipality to Get Same Rate Per Thousand Gallons as That Offered City.

At the regular meeting of the Oak Bay council, held in the council chamber last night, the water committee reported that the Esquimalt Waterworks Company had given the municipality of Oak Bay an option on the Esquimalt water at the same rate provided by the company's charter in favor of Victoria. This rate is six cents per thousand gallons delivered at the city limits. At present the agreement between the City of Victoria and the municipality of Oak Bay provides that the city shall supply the municipality in bulk, delivered at the limits of the municipality at the flat rate of eighteen cents per thousand gallons.

The option given by the Esquimalt Company is for a period of ten months, during which the municipality may decide if it is to their interest to buy the Esquimalt water rather than the city water.

The giving of the option to the municipality is simply a natural sequence of the announcement made by the Esquimalt Company a week or two ago. Then it was stated by them as published in the Times, that they were about to construct a big pipe line to the city limits from a point just below the power house at Goldstream. It was reported at that time that some such step as the above was intended and the announcement was made formally last night to the members of the Oak Bay council.

The proposal elicited some discussion and there was a fear expressed by some of the members of the council that their action in taking up the option might be misconstrued as trying to go behind the city for their supply. It was shown, however, that it was simply an option and that they would have ten months in which to decide what to do. The terms offered were much more favorable than those offered by the city, and as long as there was no intimation of breaking faith with anybody there was no harm in accepting the option. The result was that the option was accepted and the Oak Bay people have an opportunity to get water at a third of the rate arranged between the city and the municipality.

PRESIDENT TAFT TO MEET PRESIDENT DIAZ

Interview Will Take Place on Boundary During Latter Part of Year.

(Times Leased Wire.)
Mexico City, June 22.—The Mexican Herald prints the following: Replying to a communication from the White House at Washington, through the Mexican ambassador there, President Diaz has expressed his desire that he may meet President Taft for a personal interview which will take place at one of the points on the boundary line between Mexico and the United States some time during the latter part of the year. The announcement of the preliminary negotiations looking forward to this interview was made at the foreign relations offices yesterday.

REORGANIZING ARMY AND NAVY OF CHINA

Salt Tax Set Aside to Meet Expenses of Military Programme.

(Times Leased Wire.)
Tien Tsin, June 22.—The first definite move toward the re-organization of the military and naval forces of China was made to-day through the purchase by the government of a large tract of land in this city on which a military and naval academy is to be immediately erected. One hundred students from the School of Nobles have been designated to take the naval and military instruction in the school and the governors of the provinces have been ordered by the Prince Regent to submit the names of students desirous of entering either of the branches of the military service to the recently appointed army and navy board.

The salt tax has been set aside in part to meet the expenses of the military programme and a system of conscription has been put in operation to insure the recruiting of an army of 250,000 men. Prince Su and Admiral Sah, of the naval board, have been instructed to draw up a programme which will provide a fleet of 15 battleships with necessary auxiliaries to be in commission in 1914. English and Japanese instructors will be in charge of the instruction of the naval and military cadets.

RETURNED UNOPPOSED.

Hon. W. L. Mackenzie King Re-elected in North Waterloo.

Berlin, Ont., June 22.—Hon. W. L. Mackenzie King was elected by acclamation yesterday in North Waterloo. The election was caused by Mr. King's elevation to the cabinet as minister of labor.

FLOOD TIES UP TRAFFIC.
Grand Junction, Col., June 22.—Traffic on the Denver & Rio Grande railroad is blocked because of a flooded tunnel at Tunnel station, 23 miles east of this city. Two trains are tied up and it is impossible to state how long they will be held. The floor of the tunnel, which is a quarter of a mile long, is under a foot of water, and the tracks at the other points are in danger of being washed away.

KAISER HAS THE WHIP HAND

RUSSIA IS AT THE MERCY OF GERMANY

Reported to Have Possession of Plans of Important Defences.

(Times Leased Wire.)
Vienna, June 22.—The startling discovery by the Russian war office that the plans of all the Kronstadt defences, together with a detailed scheme for the landing of German forces at Sebastopol and Krasnaya, had been supplied the German staff by pro-German officers in the Russian army, and that the defenceless state of the Baltic made it possible for Germany to land a sufficient force to take St. Petersburg within a week after the declaration of hostilities, was responsible for Russia's passive acquiescence to the pro-Austrian programme of Germany in the recent Herzegovina-Bosnia crisis.

These facts were ascertained from a high diplomatic agent of Austria who was present in the Russian capital during the Balkan negotiations as a representative of his government, and has since been substantiated by the ordering of an official investigation to discover the identity of the treacherous officers.

As a result of the German scare, the Imperial treasury has been ordered removed to Moscow.

Since the destruction of the Russian fleet at Tashkima the Baltic ports of Russia have been entirely without naval defences.

With addition rampant in every branch of her military forces and with over one-sixth of the higher officers of pro-German sympathies, the position of Russia from the inception of the Serbia-Austria dispute over the annexation by Austria of Herzegovina and Bosnia did not permit of aggressive action. The discovery of the German purpose to employ in case of hostilities a military screen on the Serbian frontier and to hurl several army corps in a direct assault on St. Petersburg, which in the present state of its defences could be readily taken, compelled the Russian staff to advise compliance with the demands of Germany, though it meant the complete extinction of Slav influence in the Balkans.

MRS. GOULD'S ACTION.
Servants Formerly Employed at Castle Gould Testify to Good Character of Plaintiff.

New York, June 22.—Contradicting witnesses who swore that Mrs. Howard Gould drank heavily and used profane language, servants formerly employed at Castle Gould testified to the good character of their former mistress, when called to the witness stand in her suit for separate maintenance to-day.

Many of the servants called as witnesses by Mrs. Gould testified that they had been present on occasions specified by Gould's witnesses as times when they saw the plaintiff under the influence of liquor. These statements were denied by to-day's witnesses who said that Mrs. Gould was not intoxicated and that she did not use profane language.

Wm. M. Lynn, proprietor of the Carroll house at Lynchburg, Va., testified that he knew Mrs. Gould well and had dined with her. He said that she had always behaved in a ladylike manner, and that he had no criticism to offer as to her actions.

Lynn identified hotel records which were introduced by Attorney Shearn for the prosecution, and refuted some of the testimony given by a negro waiter named Fulton, who told of serving certain meals to Mrs. Gould and Dustin Farnum in Mrs. Gould's room. The records showed that but one meal for two persons had been served in Mrs. Gould's rooms. The negro swore that James R. Farnum, manager of the "Virginia," in which Dustin Farnum played in 1906, testified that he had never seen the actor and Mrs. Gould together except on the last night of the show's Brooklyn engagement, when he accompanied them to New York in an automobile. The chauffeur, who drove the car that night, had testified that Mrs. Gould and Farnum were the only passengers.

QUEBEC ELECTION PROTEST.
Quebec, June 22.—The protest in the Quebec West election was dismissed in the Superior court yesterday for want of evidence.

INQUEST OVER MURDERED GIRL

CHINESE RESTAURANT KEEPER TESTIFIES

Oriental Says He Received Love Letters From Elsie Sigel.

(Times Leased Wire.)
New York, June 22.—Calmly stating that he received many love letters from Elsie Sigel, whose dead body was found in a room over her restaurant, Chu Gai, a Chinese, appeared as a witness at the inquest over the girl's remains to-day.

Gai declared that he had never made love to Miss Sigel, who was the granddaughter of Major-General Sigel, a veteran of the revolutionary war, and that she never made love to him in person. He said that she wrote him love letters, however, and apparently he thought there was nothing extraordinary in her action.

Addressing him in person, he said, she always called him Chu Gai, but her letters were addressed to "My Dear Friend."

The Chinese stated that he was on close terms of friendship with both Miss Sigel and her mother and that they called at his restaurant frequently. He said he was a Christian but that he was not taught his belief by the Sigels. He attended school at Hackettown, N. J., and afterward went to Columbia University.

Speaking of the Sigels' frequent visits to his restaurant, Chu said: "Since last February Mrs. Sigel and her daughter came to my restaurant not less than once each week, up to the time of the girl's disappearance. I have visited them in their home and we were on close terms of friendship. I met them two years ago."

After his examination the coroner directed that Gai be held in \$1,000 bonds to assure his further appearance.

Watching Trains.
Vancouver, B. C., June 22.—There is no question but that the provincial police made a mistake in the arrest of an Oriental on train 47 between Revelstoke and Calgary, on the way to the coast yesterday. The suspected murderer of Elsie Sigel proved his identity as a merchant on his way to China to sail by the Empress of India. The city police and provincial police are watching trains all along the line and are aided by a Chinese detective.

TO SEARCH FOR HULL OF WRECKED LINER

Officers of Mine Planter Will Endeavor to Locate the Rio de Janeiro.

(Times Leased Wire.)
San Francisco, Cal., June 22.—Officers of the United States mine planter, Armistead, are planning to make a final effort to locate the sunken hull of the steamer Rio de Janeiro, which was wrecked in the Golden Gate on February 22, 1901. The Rio was entering the harbor on an Oriental trip and carried to the bottom with her scores of passengers and \$200,000 worth of treasure. During the last eight years many attempts have been made to locate the wreck of the ill-fated vessel. It is thought that it had been carried far to sea by the tides and currents.

The Armistead, accompanied by the Ringgold, recently came to this port from the Atlantic coast. She is in command of Capt. F. K. Ferguson.

BREAKING OF DAM CAUSES HEAVY LOSS

Wall of Water Rushes Down Pine Creek, Wrecking Mill and Flumes.

(Special to the Times.)
Skagway, Alaska, June 21.—The dam of the North Columbia Gold Company, Surprise lake, at the head of Pine creek, Atlin district, gave way on Thursday, a wall of water, eight feet high, rushed down Pine creek twelve miles into Lake Atlin, sweeping all before it.

The big bridge of the British American Dredging Company, costing \$250,000 was wrecked, the sawmill of James Clark at the half way station was swept away and the flumes of the North Columbia company and other mine owners were also carried away.

The damage is estimated at \$75,000. The accident will greatly retard work on Pine Creek this year. High water resulting from the rains caused the washout. J. M. Rueffner is manager of the North Columbia company. The stockholders are Cincinnati men.

A PRINCESS OF SPAIN.

Madrid, June 22.—A daughter was born to the King and Queen of Spain to-day at La Granja palace. The Queen and child are reported to be doing well.

RACE ACROSS CONTINENT.

Leader in New York-to-Seattle Auto Contest Passes Through North Yakima.

North Yakima, Wash., June 22.—When the Ford car No. 2, which is maintaining a good lead in the ocean to ocean automobile race, arrived here at 2.50 o'clock this morning, Mechanic Charles Smith was asleep. Driver Bert Scott was also badly in need of sleep. Both men are almost completely exhausted by the long journey. After a stop of two hours the car resumed its trip to Ellensburg. The car was in fairly good condition when it reached North Yakima.

The Ford No. 1 and the Shawmut machine are in the lower valley.

EXPRESS MESSENGER ROBBED.

Two Masked Men Escape With Five Thousand Dollars.

Green Bay, Wis., June 22.—Two masked men held up Night Messenger Kade, of the United States Express Company, last night, secured \$5,000, and made their escape. Kade was coming from the transfer room here when the hold-up took place. There is no clue to the identity of the bandits.

FIVE KILLED IN RAILWAY WRECK

BROKEN RAIL CAUSES ACCIDENT ON C. P. R.

Four of Victims Believed to Be Tramps Who Were Stealing Ride.

(Times Leased Wire.)
Vancouver, B. C., June 22.—Five men were killed in a wreck on the C.P.R. at Natch Hill, near Kamloops, to-day, when the wheel of a freight car broke and dived several cars.

Two of the bodies, recovered from the wreck, are evidently tramps, but one of the train crew is missing. The other victims, it is believed, are hoboes who were stealing a ride.

TO STUDY GLACIERS.

United States Expedition Will Leave for Alaska This Week.

Seattle, Wash., June 22.—The first expedition ever sent out by the National Geological Society of Washington, D. C., to study the big glaciers of Alaska, is scheduled to sail from Seattle on the steamer Portland on Thursday next. The expedition will be headed by Prof. R. S. Tarr, of Cornell university, and Prof. Lawrence Martin, of the University of Wisconsin.

In speaking of the purpose of the expedition to-day, Prof. Tarr said: "The big glaciers of Alaska have been undergoing some unusual and remarkable transformations in the last few years, and moving around considerably, so the National Geological Society appropriated \$5,000 to fit out an expedition to go to Alaska and study them, and to determine, if possible, the cause for their changed conditions and positions."

While no authoritative announcement of the selection of a successor to the veteran secretary has been made, it is understood that the name of Chas. E. Scott, of Kansas, is receiving serious consideration. Scott is the representative from the second district of Kansas and is serving his fifth term in the house.

FIRE DESTROYS HOUSES.

Portland, Ore., June 22.—Fire at Mt. Tabor, a residence suburb of this city four miles east of the Willamette river, consumed five or six residences. The loss is estimated at \$20,000. For a time the whole district was threatened. No fatalities have been reported.

HENEY EXPECTS BATTLE OF AFFIDAVITS

Says Calhoun's Attorneys Will Endeavor to Delay Second Trial.

(Times Leased Wire.)
San Francisco, Cal., June 22.—Anticipating a long drawn out battle of affidavits before the second trial of Patrick Calhoun actually begins, Francis J. Heney departed from San Francisco to-day for an automobile tour of the state. He did not announce his destination, but said that he would keep in touch with the situation here and return the moment a definite date for the opening of the trial was announced.

"Calhoun doesn't want to go to trial to be ridiculed," declared Heney before his departure. "He is preparing to begin a battle of affidavits containing charges which they dare not openly make in their newspapers for fear of libel."

"Their fight now is to beat me for district attorney. We have got them on the run and they will resort to desperate tactics. Just watch events."

HOLDUP ON C.P.R. NEAR KAMLOOPS

FIVE MASKED MEN ATTACK MAIL CAR

Mistook Train for One Carrying Silver Worth \$5,000 to the Coast.

(Times Leased Wire.)
Vancouver, B. C., June 22.—The C. P. R. express, No. 87, to the coast, was held up by five masked bandits at Ducks, near Kamloops, this morning. The men had evidently mistaken the train for No. 5, which was carrying silver to the coast. When the error was discovered they made a safe getaway, in a boat on Shuswap lake, and a big posse is now in hot pursuit.

Owing to a wreck on the prairie train No. 97 and train No. 5 had changed schedules, and the silver, worth about \$50,000, was on the latter. The robbers let No. 5 pass unmolested, but made an onslaught on the mail car of No. 97, breaking in the door with axes. The car was a dead-end one, and the bandits, evidently scared at the loss of time, made away directly they found out their mistake.

SHINGLE MILL BURNS.

Bellingham, Wash., June 22.—The Hastings mill, of the Larson Lumber Company, located at Silver Beach, on Lake Whatcom, was totally destroyed by fire yesterday afternoon. The blaze started from sparks which blew to the mill from a pile of burning sawdust, and, driven by a strong wind, they wrapped the mill in a sheet of flame in a few minutes after they were first discovered. The mill was valued at approximately \$10,000, and was insured for \$7,500. It was a shingle plant, with a daily capacity of 100,000.

LEGISLATORS AND GOVERNOR MAY CLASH

Move Likely to Be Made to Adjourn Sitting of Washington Senate.

(Times Leased Wire.)
Olympia, Wash., June 22.—The report of the legislative investigating committee was completed to-day and will be ready for submission to the members of the legislature when the special session is called to order to-morrow. Members of the committee and Governor Hay refuse to discuss the scope of the report or the message that is to accompany it, until both have been presented to the legislature. Senator Allen, chairman of the committee, said to-day:

"The legislative investigating committee will recommend neither the impeachment of Insurance Commissioner Schively nor the abolition of that office. The committee will report to the governor only with the facts it has discovered and it will be for the governor to determine what course the legislature will be asked to pursue."

There is a report in circulation here to-day to the effect that filibustering tactics are to be resorted to by legislators who are opposed to the special session. According to the reported plans of those opposed to the programme of the governor, it is proposed to make a motion, which will be entertained by President Ruth, to adjourn sine die immediately upon the calling to order of the senate. The motion is not debatable and requires but a majority to carry. Adjournment of the senate would, of course, put the House out of business.

Should such a move be successfully carried out, Governor Hay will probably issue another call for a special session, returnable the same day. No delay for notice would be necessary with the members all here, and he could continue to call special sessions as fast as adjournments were had. If the senate transacted the business for which the legislature is called.

The preliminary battle over the control of the special session of the legislature will be the fight to-morrow for the organization of the respective houses. The Slayden forces have made little headway in their campaign to oust Speaker Meigs and the anti-Ruth faction in the senate is beginning to make a formidable display of strength in support of Senator Rosenhaupt, of Spokane, for president of that body. As matters now stand the senate contest is very close and will be decided by the votes of Senators Allen, Blair, David and Stewart. Blair, Stewart and Davis are claimed by both factions. Allen is expected to vote for Ruth. An effort is being made to have the senate fight settled in Republican caucus, which would shut out the three Democratic members. A similar effort in the House would shut out seven Democrats, six of whom are for Meigs.

CHASE BALLOON.

St. Louis, June 22.—Two balloonists, M. A. Hellmann and John Berry, who ascended here Sunday in the balloon Melba, have returned from Wright, Ill., where they landed after an exciting trip. Shortly before landing the drag rope bowed over a baseball player as he was about to make a catch. The batsman scored and the crowd chased the balloon, trying to catch the

CAMPBELL'S PRESCRIPTION STORE

IS AGENT FOR

The Arrowsmith Arch Prop
The Featherweight Arch Prop.
The Surgeon's Arch Prop.

We have a machine for fitting the Props to the Feet
THE OBJECT OF THE ARROWSMITH ARCH PROP

Is, first, to support a weak instep; second, to prevent the arch of the foot from breaking down; third, to correct the fallen arch—these three promoting the comfort of the wearer, and finally—fourth, to preserve the shape of the shoe where the fallen arch would break down the shank.

Corner Fort and Broad. Phones 94 and 193

Steamer St. Denis sailed at Union Bay on the way south and is due to arrive here at 9 this evening.

There will be a special meeting of the city council on Thursday evening to consider the matter of the purchase of the Esquimalt Waterworks system, and the agreement with the B. C. Electric Railway in regard to the Jordan River development project. E. J. Davis, K. C., Vancouver, has given an opinion as to how far the city can

go in appropriating the property of the company. This will be read and the council will further consider the matter in the light of this opinion. It is understood that in the other matter an agreement has been reached between the city and the B. C. Electric, the draft agreement presented by the company standing with some slight alteration.

Russia has 85 annual holidays.

Business and Residential Property

ON FORT STREET, running through to Mears street, with a frontage on both streets of 50 feet, with a depth of 125 feet. There are three small houses, all rented, on the property, which brings in over 15 per cent. on the investment. The Mears street frontage, which overlooks the Quadra Cemetery Park, would be suitable for residential purposes, while the Fort street frontage would make an excellent store site. The adjoining property has been advertised at \$10,000. This is offered, on terms, at the low figure of \$5,500.

LOST HAND IN DOG
BISCUIT MACHINE

Employee Sues M. R. Smith & Co. for Damages as Result of Injuries.

The technicalities of the manufacture of dog biscuit are engaging the attention of Chief Justice Hunter and a special jury today in the case of Hodgson v. M. R. Smith & Co.
Plaintiff is suing for damages for the loss of two fingers and a thumb, and alleges that his injury was due to negligence on the part of the company. The defence is that the machinery was in good order and that plaintiff was himself to blame for the accident.

The first ground of alleged negligence is that the company provided "crackles" with stones in them, these being made in fermentation dough for dog biscuits and run through a special machine; next, that there was negligence in not providing a safety guard, and finally, that the "leaf" of the machine was endeavoring to take out a stone which was caught in the rollers when the leaf tilted and his hand went in.
J. A. Aikman is acting for the plaintiff and H. B. Robertson for the defendant company.

The executive of the Vancouver Island Development League will meet this week, when two civic representatives will take their seats. There are several important matters to be considered. Among recent callers at the offices of the league was a Vancouver man who is looking for land for ten families. He is greatly pleased with what he has seen.

The parks board will probably hold a meeting this week to deal with the arrears of business which have accumulated. The three new members of the board, Dr. G. A. B. Hall, E. A. Lewis and H. M. Fullerton, drove round the city with Park Superintendent England yesterday afternoon and saw what is being done in the parks and boulevards.

J. A. Bland, secretary of the Victoria Horticultural Society, wishes to state that membership tickets entitle the holder to two admission tickets to each of the shows. The rose show was postponed until next week in order that it might not conflict with an affair that is being arranged by the Daughters of Pitty, Tuesday, June 29th, is the date now set.

A swimming race was held last evening at the Gorge between Frank Crompton, the Island champion, and Henry Heintz, one of the crack swimmers of the Olympic Club, San Francisco. The distance was 100 yards and was won by the San Francisco man by about a yard. Heintz, who is used to swimming in tank used the crawl stroke, and as a result keeps his head under water. Crompton used the true dog stroke and some think he would have won outright had not Heintz fouled him twice on account of his swimming with his head under water.

A quiet wedding took place yesterday afternoon at the residence of Mr. John Brown, 2338 Blanchard street, when Miss Violet E. A. Brown, only daughter of Captain George Brown, of this city, was united in matrimony to Mr. Robert T. Scott, of Van Anda, Texada Island. B. C. Rev. T. E. Holling, B. A., pastor of Metropolitan Methodist church officiated. The immediate friends of the bride and groom were present and tendered their congratulations. The happy couple will make their home in Texada Island, after spending the honeymoon in visiting various places of interest.

FULL WEIGHT PROMPT DELIVERY

SAW CHINAMAN STRANGLE GIRL

ORIENTAL CONFESSES TO NEW YORK POLICE

Says He Witnessed Murder of Elsie Sigel Through Keyhole.

(Times Leased Wire.)
New York, June 22.—Breaking down under a terrible sweating by the police, Chung Sing, a Chinese, to-day confessed that he saw his room-mate, Leon Ling, strangle Elsie Sigel to death with a handkerchief in his room about midnight June 8th. Chung said he witnessed the murder through a keyhole from the room adjoining.
Detectives are convinced that Chung knows where Ling went after leaving New York and are determined to continue their inquiry until he gives them the information they seek.
Chung would say but little about the crime and when he was reduced to almost a physical wreck he was removed from headquarters to the office of Assistant District Attorney Ward in the criminal courts building. There he was put under inquiry again in company with a cook, waiter, and one of the proprietors of the restaurant over which his room was situated.
The examination developed that Leon Ling is a member of the Hip Sing Tong "hatchet men," whose battles with the On Leong Tong have disturbed Chinatown for years. He is also a member of the On Kong Tong, which is opposed to the present government of the Chinese Empire.

"JOAN OF ARC"
Maude Adams Will Present Play in Harvard's Stadium.

Cambridge, Mass., June 22.—Before twelve thousand persons, including many of the nation's most distinguished men, Maude Adams, as Joan of Arc, will start to-night in the mightiest theatrical attempt ever staged in the United States.

Harvard's immense stadium has been prepared for the gigantic production at great expense. The section that will hold the audience has been arranged to seat 10,000 persons and standing room provides for many more. Thirteen hundred actors, "sneeps" will assist the little actress.
The famous Harvard gridiron, on which many historic football battles have been fought, will form part of the stage, the size of which necessitates cues being given by means of an elaborate system of electrically flashed signals. An entire electric station has been erected near the stadium to furnish illumination and necessary stage lighting effects.
The performance is to be managed by Charles Frohman, under the auspices of the German department of the university.

GIRL ATTACKED.
Assaulted by Two Colored Women in Street in Tacoma.

Tacoma, Wash., June 22.—Attacked by two colored hold-up women on Sunday night and stripped of all her outer clothing, Miss Nellie Wood, of 2328 South 1st street, suffered a nervous shock from which she has not yet fully recovered. The story became known today when the woman's brother wrote to two warrants naming colored women who live in the neighborhood of the hold-up.

The unusual assault occurred while Miss Wood was returning home from church about 9:30 o'clock. The motive remains a mystery.

INDIAN TROUBLE.
Reports From North Are Apparently Very Much Exaggerated.

A report has been received at provincial police headquarters from Hazelton that there is trouble with some of the Kwaplo Indians. Two land seekers, Arthur Shelburne and John Blum, claim to have been turned back by the Indians while they were out in search of land.

Exaggerated reports have been circulated in consequence but those best able to judge of the situation do not anticipate any trouble. The influx of Indians into the northern country in anticipation of the building of the G. T. P. with indifference on the part of some of them creates suspicions on the part of the Indians.

No information has been received by the Indian office here from Indian Agent Loring, who is well acquainted with the situation. In the absence of this it is not believed anything very serious is likely to occur.

The Rev. A. W. Dever, until recently pastor of the Methodist church at Duncan's, is lying seriously ill at his home on Colville road, Victoria. West. Mr. Dever accepted superannuation at the meeting of the British Columbia conference of the Methodist church held last month in New Westminster, hoping that the complete rest from the responsibilities of the ministry would enable him to regain his health, but heart trouble from the effects of a serious attack of rheumatism brought a collapse of bodily strength last week, and no hopes are now entertained of his recovery.

Under the auspices of the Victoria West Methodist church a garden party and strawberry social will be held at the residence of Mrs. W. C. Bond, Craigflower road, Victoria, West, tomorrow, Wednesday, afternoon and evening. The ladies will serve afternoon tea and will have on sale ice cream, strawberries and cream and home-made candies, etc. Every effort is being made to ensure the success of the affair. The grounds will be prettily decorated with bunting, flags and Japanese lanterns and an interesting time is promised to all who attend.

TAX ON EARNINGS OF CORPORATIONS

Taft to Confer With Party Leaders—Tariff Debate in Senate.

(Times Leased Wire.)
Washington, D. C., June 22.—Final discussion of the proposed amendment to the tariff bill taxing the earnings of corporations at the rate of two per cent, is scheduled for to-night when Taft Republicans in the senate will meet the President, Elihu Root and Attorney-General Wickersham at the White House.
Attorney-General Wickersham to-day submitted to the cabinet a roughly complete copy of the amendment which will be shown to the meeting to-night.

Tariff Debate.
Washington, D. C., June 22.—The senate to-day placed a duty of 1-2 cent a pound on saltpetre. The Dingley rates were approved on zinc oxide and zinc sulphide.

Duty on enameled and glazed table, kitchen and other hollow ware was fixed at 45 per cent, which is an advance of 5 per cent. over the Dingley tariff and the Payne rate.
Senator McCumber to-day, in referring to the proposed duty on hides stated that the farmers would get the benefit and declared that if the duty was not imposed leather manufacturers would profit, although the price of leather boots and shoes would not be reduced. He also spoke in favor of an amendment proposed by Senator McCumber, of Mississippi, to the effect that the same tax that is demanded for hides be put upon calfskins.

BUILDING AIRSHIP TO CROSS ATLANTIC
Will Be Constructed to Carry Twenty-Five Passengers.

(Times Leased Wire.)
London, June 22.—The construction of an airship designed to carry 25 persons from Europe to America and return, is creating much discussion in aerial club circles to-day. The ship is being built in London. According to Arthur Philip Dugros, secretary of the Aerial Defence League, its air bag will have a capacity of 27,500 cubic feet.

The ship will have two propellers driven by motors, each with 220-horse power. The carriage will accommodate 25 passengers, in addition to supplies and petroleum.
In announcing the launching of the airship Dugros appeals for a donation for an aerial landing station, or "garage."

ORDERS OF DAY FOR FIFTH REGIMENT
First Company to Report All Complete Will Receive Preference.

The orders of the day for the Fifth Regiment contain the following:
Orderly officer for June 22d, Lieut. R. P. Stern. Next for duty, Lieut. R. P. Clark.
The following man having been duly attested is taken on the strength of the regiment, and will assume the regimental number opposite his name: Gr. Freeman Brynjolfson.

For the annual firing practice at Macaulay Fort on Friday and Tuesday evenings, the company first reporting "All complete" to the O. C. after 5 p. m. will proceed first into the fort.

AT THE WILLOWS.

First race—Five furlongs. Selling. Three year-olds and up:
1. Beaumont.
2. Blue Heron.
3. Benalier.
Time, 1:03 3-5.

"DUBLIN ASSURANCE."
New Play by Gardiner Company Proves of Merit.

"Dublin Assurance," a comedy adapted by Charles Vernon, who plays the part of Sir Felix, is sure to be a taking one at the Victoria theatre this week. Years ago Mr. Vernon starred in this play in various parts of the world. The fun is fast and furious throughout.

To-night the play is given under the auspices of the J. B. A. A. when a large attendance is expected. Mr. Gilbert does good work as young Julia Marjoribanks, while Miss Brooks makes an exceedingly handsome Mrs. Montague, a susceptible widow. Miss Girard was clever as Betsy. Reginald Holmes gave a clever rendition of Col. Revere, a credulous old gentleman. Orrin Knox does good work once more as the young woman of a racket. Charles Revere, who is aided and abetted in his mischievous designs by Sir Felix, masquerading as a doctor.

If a man hasn't a red cent he is apt to feel blue.

TOO LATE TO CLASSIFY.

APPEAL FOR SANATORIUM

DR. FAGAN DEALS WITH ITS RECORD

He Tells of Good Work Done and Asks Assistance.

At the meeting of the Anti-Tuberculosis Society, held in the city hall yesterday, Dr. Fagan took occasion to report to the society on what was being done at the Tranquille sanatorium. This action on his part was prompted by a criticism made of the way in which the work was reported upon. The following paragraph was especially excepted to:

"It is too soon for the public to expect to learn something definite of the results of the treatment in the sanatorium at Tranquille. The patients taken into the institution were only in the incipient stages of the disease. Is it not fair to suppose that some of them have progressed so far towards recovery as to be restored to their homes and occupations? We are told that the situation is one specially adapted to the cure of lung trouble and there can be little doubt that all that skill and knowledge can do to assist in the cure of the patients there has been done. A record has been kept of all cases. Would not the movement be forwarded by a publication of the cases cured or greatly helped?"

Replying seriatim to this the doctor said:

1. That it is by no means "too soon for the public to expect to learn," since already at two public meetings convened for the purpose, the fullest particulars have been given by the officers of the institution in person, brought down from Tranquille for that purpose. To these meetings both the press and public were earnestly invited, and all statistics were placed at their disposal for information and publication.

2. That "the patients taken into the institution were only in the incipient stages of the disease," is a statement distinctly misleading. The institution, it is true, was designed for the treatment of incipient tuberculosis, but, owing partly to specially pitiful circumstances and partly to the fact that as yet no provision has been made for them, a large proportion of advanced cases have been received there for treatment. It is hoped that in the near future provision will be made for the special handling of advanced cases of consumption. What the ultimate results will be, the God of mercy and the future can alone decide. But it would be fatal to our objects and to the philanthropic trend of our endeavors to select cases which would show good results, for the mere object of a glowing report; that is a policy which we do not propose to work upon. We shall faithfully do our best for every case which comes into our hands, and whether the result be success or failure is a circumstance which will never influence the policy which at present controls the policy and destinies of the Tranquille institution. For, in this connection, it must be borne in mind that, whether the individual result be good or bad, whether, in response to our strenuous endeavor, a life be saved or prolonged, or a life be lost, we nevertheless, in either case, lift from the family and the community the menace of a citizen capable of communicating disease to others; and, whether he be sent back cured, or not cured, he is at least returned to his home and surroundings equipped with a perfect knowledge of the manner in which to conduct himself so that he will no longer be a danger to his family and friends.

The result of the admission of advanced cases into the Tranquille sanatorium has naturally been an increased strain upon the medical superintendent and his staff; and their inclusion in the statistical returns has considerably reduced the apparent proportion of good results justly due to the sanatorium treatment.

The aims and object of the British Columbia Anti-Tuberculosis Society, however, are not bound within the narrow limits of statistical returns. It is a larger field in which their work is set. And anxious though we be that the individual showing should reflect credit upon the institution and the workers therein, as a curative agency, such self-glorification is not our object, nor do we desire to "boom" the work of our hands.

Consumption is a terrible, insidious, contagious disease, of such widespread proportions and of so deadly a nature as to constitute a national danger of a virulent but commonly unsuspected nature. Its death toll is greater than that from all the well-known (symptomatic) diseases combined. The objects of this society and kindred organizations all over the civilized world is: 1, to make known its causes; 2, to restrict its fatal results; and, 3, to prevent its spread.

Knowledge is the one great medium through which these things can be achieved; and it is only by sanatorium treatment and submission to strict regulation that such individual education can be imparted as will act effectively in securing the safety of others and stay the spread of infection in home, workshop, factory, mine, or wherever men do congregate.

It is thus made apparent therefore, that the main object before the society is the ultimate eradication of tuberculosis; and the means to that end, education; which education the society seeks to impart by direct individual instruction, through the agency and ministrations of branch and auxiliary societies and by the free and profuse distribution of descriptive literature to the public generally, but especially to school teachers and school children.

The following summary taken from the latest report of the medical superintendent will show what advance has already been made towards this goal in the temporary quarters and under the difficult conditions which prevail pending the completion of the sanatorium buildings at Tranquille: Out of 66 patients who have left the

institution, 23 have been restored to health, and are carrying on their customary avocations; 11 continue in good health, but are unable to take up the ordinary duties of life, being what is termed economic cases; 9 are stationary; 17 are progressive; 6 are dead.

Amongst the above, 15 are members of fraternal societies, and 11 are on the books of insurance societies for various sums with policies ranging from one to nineteen years' standing. Of the insured 5 are apparent cures, 5 are arrested or improved cases, and 1 is dead. Of the members of societies drawing sick pay, 9 are apparent cures, working or fit to work; 3 are cases of the disease arrested, and 3 are dead.

The above does not include the patients at present at Tranquille. We hope and pray the results of the efforts to return them to health and home will be satisfactory.

The average stay of patients has been about 200 days, but some have stayed over 500 days.

Now just a word as to the future: The building now in process of structure will be delivered in August and opened in September. Its cost is \$60,000 and \$12,000 is needed for furnishing. The heating and lighting (electricity) will cost at least \$12,000.

We will then be in a position to handle ninety patients. This is good, but it is not enough for the number of patients in British Columbia. The board's ambition is to be in such a position as not to be compelled to ask patients to wait, immediate action means so much not only to the individual, but to the family and the community.

In order to be in such a position big money is needed, and I now appeal for help. The more money we can get the more assistance we can extend to our citizens. All I will now say is that consumption may be cured, and that prevention should be sufficient to point out our duty to ourselves, our families and to the community.

I appeal on the broad lines of humanity.

MARINE DEPARTMENT INQUIRY CONTINUED

Evidence Produced Denying That Supplies Were Taken to Capt. Gaudin's.

The commission of inquiry into the affairs of the marine department was continued yesterday afternoon before Commissioner Gregory at the office of marine and fisheries. A. J. Maynard and A. J. Grey, who were employed by Mr. Nodok as deliver boys just previous to his going out of business, testified to having never delivered buckets or window sashes to Captain Gaudin's house. Mr. West, a tinsmith, was also called, but did not remember having made the buckets mentioned by the witness Schultz. A number of bills and other documents were asked for by the commissioner to be produced to-morrow morning at 10.30, when the commission will sit again.

Albert Jan, Maynard gave evidence of having worked for Mr. Nodok for the six months previous to his going out of business. He often delivered goods at Captain Gaudin's house. So far as he remembered he never delivered anything that was not purchased at the store. He had no remembrance of having delivered buckets or window sashes. Bert Grey preceded him at the work of delivering, and was there, he thought, for two years or more.

Cross-examined by Fred. Peters, K. C., witness said he did not remember delivering anything outside of purchases made at the store. It was a long time ago, however.

In answer to the commissioner witness said the only work he ever remembered doing outside his regular work was hauling some whiskey from a sailing schooner to the police court. Albert James Grey, driver for Sylvester Feed Co., said he worked for Mr. Nodok about six years ago for a few months. He was succeeded by Albert Maynard. He did not remember delivering coal buckets or window sashes to Captain Gaudin's. He thought if he had done so he would have remembered it. He remembered delivering feed to Capt. Gaudin's.

Mr. West, tinsmith, said he was not sure as to whether or not he had made buckets for the marine department. He had made them for the Wellington Colliery Co., and others around town. He had worked for Captain Gaudin at different times, and had been paid by him at the house or at his shop, but never at the marine office.

A. J. Dallain, recalled, produced all the requisition papers for the year 1908 and 1909, and picked out those relating to Discovery Island lighthouse. He had, however, failed to find any relating to coal buckets for Discovery Island.

Witness said he failed to find the orders given to the officers of the ships for the delivery of coal. The only order he could find was for 1901. Written instructions were given to the supercargo. This man delivered to the office the receipts from the keeper of the station which were used in checking up the merchants' bills.

Captain Gaudin, recalled, said he ordered coal for the stations according to a regular system. A copy of the orders was always kept.

Separate bills were made out for coal supplied to each station, and these were paid by cheque from Ottawa. On the commissioner asking for all the coal receipts for 1908 Mr. Peters intimated that Captain Johnson would be proceeded against for perjury, and see what a jury would think of it.

The commissioner was then adjourned in order to give time to search in the papers required by the commissioner.

This morning it was found necessary to adjourn until Friday morning, it being impossible to get a stenographer for to-day.

HOUSE STRUCK BY LIGHTNING.

St. John, N. B., June 22.—The summer home of J. H. Hamilton at Summerside was struck by lightning yesterday and Mrs. Hamilton, her daughter and the housemaid rendered unconscious, but they were soon revived.

ENFORCING CIGARETTE LAW IN WASHINGTON

Twenty-seven Arrests Have Been Made by Police in Tacoma.

Tacoma, Wash., June 22.—At noon yesterday a total of twenty-seven men and youths had been arrested by the Tacoma police under the new cigarette law, passed by the last legislature. In practically every case the offenders were arrested in the act of smoking the "pills."

In a few instances the officers nabbed their victims even before the unfortunates had finished rolling the cigarettes, and once or twice suspicious appearing individuals were searched and arrested for having the "makings" in their possession. Five young men arrested Saturday afternoon and Sunday for smoking the offending cigarettes were hauled before Police Judge Arntson yesterday and entered pleas of guilty. Each was fined \$2 and costs, with the warning that the next time would be much more severe.

POSTMASTER DEAD.

Walkerton, June 22.—Malcolm McLean, postmaster here since 1852, died yesterday, aged 92. He was born in Argyleshire, Scotland, in 1817. He had never married.

INVENTOR SHOTS HIMSELF.

Puts Bullet Into Head Because He Was Forbidden to Manufacture Gift Paint.

Seattle, Wash., June 22.—Because the United States government had forbidden him to manufacture a gift paint whose peculiar property made it almost indestructible, Theodore Krantz, 64 years of age, graduate of several German universities of high standing, and a native of Berlin, is a suicide. At the home of his daughter, Mrs. James Hall, Krantz fired a bullet into his head after leaving a note saying simply: "Good-bye, I'm going."

THE WHITE SLAVE TRAFFIC.

International Council of Women Will Discuss Question at Private Meeting.

Toronto, June 22.—It was decided at yesterday morning's meeting of the International Council of Women that the department which heretofore has been dealing with the white slave traffic shall be known as the committee on equal moral standards and traffic in women. The whole question of what is known as the white slave traffic will be fully discussed at a private meeting of the council on Friday night.

DROWNED IN FOOT OF WATER.

Armstrong, June 22.—E. Copley Thompson, a well known business man of Vernon, who was in camp with the Okanagan Mounted Rifles, was drowned Saturday. He was a powerful swimmer, but must have been overcome by cold or fright, for he was found lying in less than a foot of water.

DOING VERY WELL.

Readers of the Times will be astonished to learn, on so veracious an authority as the Colonist, that this paper is antagonistic to the entry of transcontinental railways into Victoria. We may have pointed out on occasion that the reason why the managers of such great Canadian railway corporations as the G. T. P. and the C. N. were not in any hurry to lay their rails from the mainland to the island might be found in the fact that water transportation costs about two-thirds less than rail transportation. The water-going between the island and the mainland is, on the whole, very good. It is not interrupted for several months in the year by ice. The Times is, we hope, just as loyal to Victoria, where all its interests are centered, as the Colonist. But would it not be futile for us to butt our logical heads against physical conditions? There are certain characteristics in connection with the operation of railways which cannot be overcome by the exercise of a very pleasant but utterly impracticable fancy. There are advantages as well as disadvantages in connection with our insular position. We islanders have already direct rail connection, without loading, unloading and reloading cars, with the markets of the continent. All we can produce is, or ought to be, placed in the mouths of consumers as readily as the produce of our

neighbors doing business on the mainland. Passengers are treated differently, we suppose, because they can load and unload themselves without cost either to themselves or the railway companies. That being so, there is little hope, for the present at least, of the companies going to the expense of transporting passenger cars containing passengers from the mainland to the island, or vice versa. If there were a long land journey to be made to the westward of Victoria, the companies might take a different view of the matter. But they deal with the case as they find it. In the meantime the C. P. R. is doing, or professes to be doing, all in its power for the development of Vancouver Island. When through its efforts and our own there is a large population here, consuming more in proportion to its numbers than any other community on the face of the earth—as is the case at present—and producing in a corresponding ratio, we may be sure there will be keen competition amongst the railways for our business. As the case stands Victoria is one of the most prosperous cities in the world and the standard of living and of comfort set by her people is the highest in the world.

THE YOUNGEST CABINET MINISTER.

Hon. William Lyon Mackenzie King is again a member of Parliament as well as the first distinctive Minister of Labor in the government of Rt. Hon. Sir Wilfrid Laurier. Mr. King was elected by acclamation for the constituency of North Waterloo, a seat which he redeemed for the Liberal cause in the general elections of October 28 last. It would be mere formalism, which the Times abhors, to say that the country and the political parties by which the country is governed are to be congratulated upon the election by acclamation of the brilliant young man who has already achieved a considerable reputation, although only a little over thirty years of age, as an administrator and conductor of delicate diplomatic missions. It is eminently fitting that in this day when the relations between capital and labor play an important part in the progress of countries in which popular government has reached such a high state of development, that the wage-earners should have a special representative in the cabinet of Canada. And it is equally fitting that that representative should be a man who has made a specialty of the questions with which he will be called upon to deal particularly as Minister of Labor. Mr. King has never made any secret of his sympathy with the cause of the men and women of this country who are engaged in industrial occupations. He has made a special study of that cause and subject in several of the universities of Canada and the United States. He has brought all the influence at his command to bear upon the evil of child labor also; and as all who have followed the course of industrial events know, he has accomplished a great deal to ameliorate the conditions under which the so-called working classes of the Dominion have fought the never-ending battle of life. We might specify the circumstances under which the sweating system was abolished from all Dominion government contracts, and the adoption of fair wage clauses in all other contracts for federal government works as examples of the results of the new Minister's efforts when acting as a subordinate under Sir William Mulock, the Minister who, in a sense, discovered Mr. King and secured his services for the country. In addition to his talent as an administrator, Mr. King promises to develop into a sound parliamentarian, possibly into the most attractive public speaker of the distinctively Celtic-Saxon wing of the political forces represented in the House of Commons of Canada. Those who were fortunate enough to hear his address on the occasion of his last visit to Victoria will remember that there was a warmth in his tones, as of suppressed and controlled fire, indicative of a power, in reserve which might, given the time and the subject, strike a sympathetic chord in the hearts of his audience. And this able young Canadian has come into his inheritance legitimately, for his "rebel" progenitor, though uncouth style compared with his polished descendant, possessed the gifts of the tongue and intellect which moved multitudes and compelled reforms in the old province of Ontario. There is a general consensus of opinion on both sides of politics that Sir Wilfrid Laurier, marvellous judge as well as matchless leader of men, made no mistake when he chose the young man who has ever set in council as his first Minister of Labor and colleague. There is a brilliant future in store for Hon. William Lyon Mackenzie King.

THE POOR PAY.

THE RICH ESCAPE.

The idea, or the obsession, behind Senator Aldrich and his Republican supporters in the United States Senate is that by some economic process, working through a tariff they can bring about an industrial millennium, applicable only to the United States. The ideal they aim at is conditions under which foreign ships would be coming daily into their ports with empty holds

and departing loaded to the hatches with American goods and manufactures to be sold to foreign consumers. But, as has frequently been pointed out, there is a principle governing exchange or trade which cannot be overcome by legislative ingenuity. Europe, it is true, buys from the United States every year one hundred millions of dollars' worth of goods in excess of what she sells to the people of that country. That is called a favorable balance of trade. Yet the authorities who go down to the root of things say the foreigners must get that one hundred million dollars back in some way or their further purchasing power would in course of time be absolutely wiped out. We know they are not impoverished, but rather enriched, by their purchases. They get their hundred millions back. How do they do it? There is always an unfavorable balance of trade against Great Britain, yet the wealth of the country is steadily increasing.

A second lieutenant in the United States army, writing in Collier's, lets some light fall upon the matter. He speaks from personal experience. On graduating from the military academy he found five hundred dollars would be necessary to purchase uniforms. "Four hundred dollars of this amount," to use his own words, "will be spent for clothing an officer must have, and his clothing is made from the best English-manufactured broadcloths and olive drab goods. I don't know exactly the duty on these goods, but I believe it is about forty or fifty per cent. (The editor points out that the duty is actually about ninety-six per cent.) Although protected by the tariff no American manufacturer can produce goods of the quality suitable for officers' uniforms, and we poor devils are forced to pay almost double the price for our clothes. A graduate of '07 went to London and bought his first outfit of clothing in that city. He saved enough by buying his outfit in London to pay his fare to Europe and back again. . . . He wrote our class advising us all to go to London for our uniforms, assuring us we could save money and have the trip too. The tariff hurt me for two hundred dollars this year (out of a salary of \$1,700), and will keep on hurting me for about the same amount each year until it is changed."

This is one instance of the manner in which the natural law of trade works. But it does not work in such a way as to permit the average American consumer to escape the consequences of extreme protection. The young officer pays two hundred dollars a year in taxes, more than ten per cent, upon his income. The average workman probably pays quite as much, while President Taft and his Senatorial tinkers are vainly trying to devise a system of imposing a tax upon large incomes and actually propose to strike at the great corporations by levying two per cent, upon their net profits! The "common people" of the United States are indeed a peculiar people or they would not submit to being "fooled all the time."

The following from Tit-Bits is at least good enough and sufficiently characteristic of the Prime Minister of Canada to be true: Sir Wilfrid Laurier, who has for twelve years been in continuous power in Canada, is the thirteenth of Prime Ministers. And yet a busy Conservative M. P. was once maladroit enough to charge him with "fattening at the expense of the poor deluded people of this country." Sir Wilfrid genially retorted: "I ask the House to look at the hon. gentleman opposite and then at me, and say which of us is more exposed to the charge of getting fat." The contrast between the aldermanic proportions of the assailant and the slim figure of the assailed was too much for the gravity of the House, and there was a general and genial roar.

A USEFUL SPANISH INQUISITION.

(Detroit Free Press.)
In Spain male adults under 70 are required to vote at municipal elections. The first violation is penalized by public whipping, an increased rate of taxation and a reduction of salary if in public employ. After a second violation the offender cannot hold an elective or appointive office. How would this Spanish inquisition work in our cities? It would at least turn the light on the citizen who gives out the most reform talk and speers and calamity-howls while doing the least voting.

PERSONAL.

Mrs. Greenhalgh, the worthy grand president of the Daughters of St. George, returned to Victoria on Sunday, in company with the other delegates who had been attending a convention of the order in Seattle. They report a delightful outing and a splendid time at the A-Y-P exposition.

Mrs. J. R. Anderson, Superior street, is celebrating the fiftieth anniversary of her arrival in Victoria today, and is in consequence being called on by a number of old friends, whom she is receiving informally.

M. R. Cotsworth, J. A. Mara and Curtis Sampson, members of the public survey commission, left last evening for Westminster, inaugurating their tour of the government agencies of the Mainland.

Mrs. David Leeming, of "Bee Cottage," Simcoe street, will not receive during the summer months.

Mrs. Charles A. Steele is receiving this afternoon at her residence, 531 Toronto street.

J. M. Blain left yesterday afternoon on a trip to Cedar Rapids, Iowa.
A glass eye can rarely be worn more than a year, for the surface gradually becomes roughened and irritates the lids.

PREPARING FOR
COWICHAN BAY REGATTA

Attractive Programme Has
Been Arranged for Dominion Day.

(Special Correspondence.)

Cowichan Station, June 21.—The arrangements for the annual regatta at Cowichan Bay, on July 1st have almost been completed, and an interesting programme of events in the shape of rowing, sailing and motor races, swimming and other aquatic sports has been prepared. One race for dingy boats will be a novelty, the boats having to be pulled to the turning point and sailed back.
A gang of ten men, under J. Shearing, has almost completed a new wharf.

The yacht Mauping, with Mr. Rogers and party from Vancouver, anchored in the bay last week, and the party took a run to Duncan in H. Keast's motor.
The Shawinigan Farmers' Institute held a meeting in the South Cowichan hall last Monday when R. W. Hodson, live stock commissioner, gave an interesting talk on the subject of drainage. V. Nightingale also spoke on the agricultural development of the island. It was agreed at the close of the meeting that instead of forming a separate institute here that this district should join with the Shawinigan institute, and meetings would be held alternately at Cowichan and Cobble Hill.

Mr. and Mrs. Tait, of Victoria, got a nice basket of trout in the bay yesterday, the largest weighing 3½ pounds. They were taken with a single Tacoma spoon. Mr. Pocock and a friend also got a good basket, including some fine 1-pound trout.

Other Victoria visitors to the Hotel Buena Vista during last week were: J. Ballantine, Mr. and Mrs. Reade, Messrs. Wise, Mann and Harris.
Mr. and Mrs. Herriot, of Okanagan, are also staying here for a month.

A paragraph appeared in the Colonist of last Friday under the heading "Appearances are Deceitful," which seemed to imply that two men who had walked from Duncan were refused accommodation at the Bay hotel. This must have been a sign of someone's idle brain, as no such incident took place.

CARNEGIE'S PLAN TO
LIMIT ARMAMENTS

Wants United States to Issue
the Call to the
Nations.

The gift of \$200,000 which Mr. Carnegie has made to France for rewards to heroes of peaceful pursuits is only another incident in the campaign to which this apostle of peace has devoted his life. Useful as Mr. Carnegie seems to be to improve the imagination of one nation after another with that glory of heroism which is to be found not in war alone, he has in mind a project infinitely more vast, says the Paris correspondent of the London Daily Mail.

His proposal to summon an international conference for the limitation of armaments is not new. What is new, however, is that the call shall be made by the United States. The reason he gives for this choice is that neutral nations cannot remain indifferent to the action of two rival powers which lay enormous burdens on the rest of the world, and threatens war in which all may be involved.

Mr. Carnegie is now engaged; there he reason to believe, in sounding the rulers of Europe as to what kind of reception such a call would have. Last week he had an audience of the King of Italy and a conference with the political leaders. He saw, also, the president of the French republic and the premier and leading senators before he left for England a few days ago.

Mr. Carnegie never spoke with greater seriousness and earnestness than when he talked to me of his plans.

"I find Europe in a ferment," he said, "and nations gone 'dreadnought mad.' Italy has just decided to spend on battleships many millions of pounds which she can ill spare. Austria has embarked on the same insane programme; while France has resolved on no fewer than thirty-eight sea-monsters as necessary to her security. All this is caused by German and British rivalry."

"Now this is not merely a spectacle for the United States of America to marvel at, but it has a direct and vital interest for us. Our country is necessarily about to be drawn into the vortex, and it has become a pertinent question whether it is permissible that any two nations should involve all the other chief nations in this mad rivalry or doom them to a practically defenceless state."

"Consider the imbecility of this course. When all nations have increased their armaments as proposed the situation will remain precisely as before. None will have improved its position. Increased armaments can guarantee the security of no nation; they can only invite suspicion and provoke antagonism towards that nation."

"Here is the sovereign remedy for the malady from which Europe is suffering. The United States is the greatest industrial and the most peaceful nation; it is without prejudices or special interests, and is in a position to invite the naval powers to meet at a friendly conference and to endeavor to find common ground on which to cooperate with a view to avoiding the dangers of the course they are now pursuing."

"The first duty is to discover what nation, if any, is at fault — on which nation must rest the responsibility of promoting the peace of the world. If any power or powers should refuse to accept the invitation to meet in friendly conference, it would be clear where the responsibility rested. If such conference were convened and any power refused to enter the league of peace, to submit to arbitration all questions arising in future on sea, and to agree that private property shall be immune on sea as now on land, then also it

Another Large Shipment of Furniture Received
REASONABLY PRICED

THAT our Furniture Department is rapidly gaining favor with home furnishers is fully demonstrated by the large number of purchasers who are in daily attendance at this store. Thrifty buyers have come to realize the fact that by purchasing from this store they not only get the very latest styles in high-grade furniture of exceptional quality and finish, but that the money expended goes considerably further than elsewhere. The new arrivals that we have just opened up are specially interesting, but most noteworthy among these is the large variety of Hall Furniture. During the past while we have had repeated calls for Hall Furniture, so that all those wishing to purchase their hall needs will find by visiting our Furniture Department on third floor that they will be well satisfied both in price and quality.

would be clear where the blame must rest for continuing the present intolerable conditions.

"Here, I say, is a probable way out of the dangers which threaten civilization itself. The obvious agent for initiating a proposal for such a conference is our own favored republic, removed as it is from the field over which war hovers; standing outside the mutual suspicions which make Europe a camp of armed men not against foreign foes but against brother Europeans—a continent tearing itself to pieces as if one member of the body should wound another."

"May President Taft," concluded Mr. Carnegie, "rise to the occasion and let the world know there is one nation that is the champion of Peace. Thus at least will he have done his duty and placed as leader among nations for peace on earth and among men good will."

RICH COPPER ORE
IN HIGHLAND VALLEY

Arrival at Ashcroft Reports
Considerable Activity in
Camp.

There is much stir and activity in Highland Valley mining circles just now, says the Ashcroft Journal. There are several prospectors looking, not for the yellow metal, but for the rich copper lodes that are proven to exist in that neighborhood, the air re-echoes with the blasting of shots, and much assessment work on the various claims is being done.

Charley Day is opening up a promising claim called the "Twenty-four Hours," which adjoins the Topnotch on the south. He is cross-cutting the ledge, and has opened up some 400 feet in white mica gangue, rich in copper pyrites and bornite.

Messrs. Henderson, Ward and Couvrette, the owners of the Ball group of claims, have an experienced man looking over their properties with a view of determining on the season's operations and the best place to commence work.
George Chataway has just arrived in town bringing in some lovely rock from his Topnotch. This splendid claim looks most promising with six

feet of rich copper ore taken from an eighteen-foot winze. The tunnel has been driven in over two hundred feet and the ledge is one of the richest yet discovered in this province.

Messrs. Cowan and Leitch are working on the Tamarac group, the property of Dr. Sanson, and much work is being done stripping the surface of the I.X.L. fractional claim, which shows seven to ten feet of good ore in three different places. Both the I.X.L. and the Shamrock belong to the Tamarac group, and Jack Cowan, who has the development of the Shamrock in hand, has tunneled in over a hundred feet, and is now cross-cutting the ledge, and expects to connect with it in short order. Altogether the outlook is most encouraging.

ACCEPTED HINDU FAITH.

An Australian Young Woman Makes an Unusual Change.

A novel ceremony took place here, says the Lucknow correspondent of the London Standard, when a Miss Thompson, a young and good-looking Australian, was admitted to the rites of Hinduism, as practiced by the Arya Samaj. Miss Thompson came to Lucknow from Calcutta purposely to renounce Christianity and embrace Hinduism.

The ceremony took place in the courtyard of the Raja of Vizianagram's residence, and was watched by a huge

crowd, composed principally of the masses. Miss Thompson, who was dressed in Indian costume, wore a beautiful pale blue sari, bespangled with gold, and her arms were bare to the elbows, save for heavy gold bangles. She did not appear at all nervous, but smiled pleasantly while carrying out the ceremony, which was the customary one of purification by fire and water required by Arya Samaj rites.

Miss Thompson responded to the questions asked by the Hindu priest in a low, inaudible voice, and each response took a little water in the hollow of her hand from a bowl and touched her lips with it. Then she washed her hands, and dipping her fingers into the bowl, touched her eyes, her forehead, her ears, her waist, and then threw a little water over her body. A sandal-wood fire was burning near by, and the young woman presently filled a spoon with oil and poured it on the fire. The ceremony lasted over an hour. It is said that she is soon to be married to a Bengali barrister.

Seventy-nine new woods, all valuable, have just been discovered in Papua, British New Guinea.

The water of the Antarctic ocean is colder than that of the Arctic.

—All Hats below cost at the "Elite" Millinery, 1216 Douglas.

—A message from Hon. Dr. Young, provincial secretary, who is now in Atlin, conveys the information that Burrer's dam at Surgey lake has burst with a heavy loss to the investors.

—The pupils of Mrs. Boulton, A. R. C. M., will give a piano recital at Waitt's hall on Saturday afternoon next. Programmes of admission can be secured at 1125 Richardson street.

—The Daughters of St. George held their annual ice cream social last evening in their room in A. O. U. W. hall, when a very enjoyable time was spent. Miss Tenketh rendered a number of vocal solos which were much enjoyed.

—The ladies of the First Presbyterian church will hold a strawberry social in the church lecture room on Wednesday evening next. A very pleasant time is promised all those who attend. Ice cream will be served as well as strawberries.

—A meeting of the local union of the Brotherhood of Painters, Decorators and Paperhangers of America was held last evening and officers for the ensuing term were elected. The following were elected: J. Wags, president; A. F. Roy, vice-president; treasurer, J. Creed; secretary, R. Ryan; financial secretary, W. Clark; conductor, F. Perrott; warden, J. Wallace; trustees, A. Argyle, E. Gilligan, and L. Wright; delegates to Labor Council, W. Clark, R. Ryan, A. Argyle; delegates to N. W. Painters' Conference, A. Argyle.

—The names of the following kind donors to the pound party in aid of the Protestant Orphanage were accidentally omitted: Mrs. T. N. Butler, 1 sack rolled oats; 1 tin biscuits; Miss Mabel Miller, 1 sack rolled oats; 1 tin biscuits; Mrs. A. Leigh, 1 sack flour; Frank Brundridge, 3 doz. oranges; Mrs. Napier Hibben, 2 sacks oatmeal; Mrs. D. Gonnason, 1 sack flour; Mr. Mara, 35; Master Royden Morris, Elliot street, 35; Mrs. H. A. S. Morley, 25; Mrs. Wm. Otkins, 42; Mrs. Rudin, 1 sack potatoes; Mrs. and the Misses McCulloch, rolled oats, canned vegetables, currants and raisins; the ladies' committee, cakes.

—A very enjoyable time was spent in the lecture room of First Congregational church last evening, on the occasion of the church's annual ice cream fete. Refreshments were served after the programme. Mrs. D. C. Reid, Miss Cocker and Mr. and Mrs. Hunt, the latter of whom are new comers in the city, rendered a musical programme which was greatly enjoyed by all. Mrs. Reid in particular, seemed to be at her best. Miss Cochrane acted as accompanist in her usual happy manner, and the popular pastor, Rev. Herman Carson, in a short speech, welcomed all who were present. Mr. Carson intends leaving the first of next week for St. Paul, where he will attend the Christian Endeavor convention. Later Mr. Carson will visit his old home near Montreal. He expects to be absent about a month.

TRAMWAY COMPANY TO REPAIR ROADS

Oak Bay Council Finds Fault With Work Done.

There is still friction between the Oak Bay municipality and the B. C. Electric Railway Company. The municipal council claims that the Tramway Company make no effort to keep faith with them in the matter of keeping the roads in good condition. They tear up the roadway to lay new lines and do not replace it in as good condition as it was before.

At the meeting of the Oak Bay municipal council held last night, at which the reeve presided, and all the councillors were present, Councillor Pemberton referred to the bad condition of Empress street. It was almost impossible to drive up that street for the material the company had laid was neither gravel nor sand, but simply the waste material from the gravel pits, which would never be replaced. This brought up a discussion on the whole question. It was shown that at the terminus of the track the road was still in very bad condition. Good gravel roads have been broken up and the material put in its place was simply useless from a road construction point of view. The company took no notice of protests made by the council. After a good deal of discussion a motion was passed, giving the company thirty days in which to make the roads good.

FETE AT GORGE

Daughters of Pity Have Made Arrangements for Event at Japanese Gardens.

At an informal meeting of the Daughters of Pity held at the home of Mrs. Hasell yesterday afternoon, final arrangements were made for the fete to be held at the Japanese gardens on the afternoon and evening of Friday the 25th inst.

Dainty refreshments, including ice cream and home made candy will be on sale, and "putting" and other outdoor games have been arranged, for which prizes will be given. There will be plenty of good music and other attractions including fortune-telling during the afternoon, and in the evening the choir of the First Presbyterian church will give one of their famous Scotch concerts.

Invitations have been sent to many old friends of the society in the hope that those receiving them, will, in their turn pass them on to others, thus helping to make the affair an unequalled success. The paths at the Gorge have been put in excellent order and no one need be afraid of soiling dainty shoes.

All the ministers are out of town with the exception of the Hon. R. G. Tallow. The premier and the Hon. Thos. Taylor are in the interior and will return to this city about July 4th. Hon. J. Fulton is in Kamloops visiting his old home with his wife and will be absent for about ten days. Hon. Dr. Young is expected to arrive back from Atlin some time this week.

CONTRACTORS TO BE ASKED FOR TENDERS

City Engineer Will Submit Figures at the Same Time.

The streets committee, at the meeting of the city council last night, reported on a number of works. The report which was adopted was as follows:

1. Recommended that permission be granted to the Oriental Importing Company, of 508 Cormorant street, to place a standard Gillett boulevard arc lamp in front of their premises at a point to be designated by the city engineer, and on condition that the light be allowed to remain there at the pleasure of the council, and that the same be lit every night and kept burning until 12 o'clock midnight.

2. Recommended that the city clerk be instructed to communicate with the owners of the house which is moored in the Causeway, requesting them to have same removed forthwith, and that all persons who have any signs displayed for commercial purposes of any description on the Causeway be directed to have them taken down, and that no similar signs be allowed in future on the Causeway.

3. Re communication from the city solicitors in reference to the procedure to be taken for the expropriation of certain property on Government street in connection with work of local improvement authorized by by-law No. 610.

Recommended that the suggestions therein contained as to the procedure to be followed in the case be carried out and that letters of instructions be addressed by the city solicitors to the city assessor, city engineer and city clerk, respectively, for their guidance in accordance with the suggestions contained in such letter.

4. Recommended that following local improvement works be carried out by contract, viz.:

Fernwood road from Fort street to Edmondson road.

Asquith, Cecil, Forbes and Victor streets, from Edmondson road to Ryan street.

Fourth street, Fifth street off Mount Tolmie road.

Hulton street, Cowan avenue and Amphin street.

Belmont avenue from Pembroke street to Pandora avenue, and that so soon as the recommendations are prepared that tenders be invited for carrying out of these works.

5. Recommended that the conditions upon which the Oak Bay municipality will allow the construction of a surface water drain on Fowl Bay road, between Leighton road and Fort street, with the limits of the municipality, be approved and the city engineer instructed to proceed with the work; the conditions imposed being as follows:

First—That no sewage be discharged into said drain.

Second—That the municipality has the right to connect at any point for the discharge of surface water only.

Third—That the engineer of the municipality be consulted with respect to the position of said drain and to the state of its completion.

6. Recommended that a surface water drain be constructed on Bridge street. Estimated cost \$450.

7. Recommended that sub-divisional plan of Fernwood gardens, being part of section 29, Victoria city, be approved by the council.

8. That the by-law re expropriation of a portion of Esquimalt road be rescinded, as we cannot agree to grant the Silver Spring Brewery thirty feet on Lime street, as they claim under the proposed agreement.

On motion of Ald. Fullerton it was resolved, in connection with the work mentioned in paragraph four, that the city engineer shall put in competing tenders, which shall be opened at the same time as those from contractors.

—Capt. C. D. Jones, secretary-treasurer of the Clayoquot Development League, has resigned the position and J. J. McKenna has been appointed to act in his stead.

—A body badly decomposed has been found in the bushes some distance from Raymond's Crossing on the E. & N., which has been identified as the remains of Jas. C. Randolph. The man lived in a hut near Shawanigan Lake and had been drinking heavily before he disappeared early in May. When found the body was without clothing.

Ten Handsome Dinner Sets

GIVEN AWAY MONTHLY

The numbered coupon contained in every 49-lb. sack of Royal Standard Flour gives you a chance to win a beautiful 109 piece china dinner set. Watch this space the first issue of every month for the lucky numbers. Gather all the coupons you can, and compare them with the winning numbers.

Royal Standard Flour is a pure, clean, wholesome flour, made from specially selected wheat, brought from the choicest wheat fields of the Canadian West, milled in Vancouver, and handled with the utmost care through every process until it reaches your kitchen—the best flour on sale in British Columbia to-day.

PRESENTATION MADE.

Rev. G. W. Dean is Remembered by Adult Bible Class.

The members of the adult Bible class of the Metropolitan Methodist church took the opportunity Sunday afternoon of expressing their appreciation of Rev. Geo. W. Dean's work as Bible class leader by presenting him with a gold fountain pen, having his initials engraved on a gold band attached. The following address accompanied the presentation:

Rev. Geo. W. Dean, Victoria, B. C.: Dear Sir,—During the term of your leadership of the Metropolitan adult Bible class your services have been most highly appreciated. Your efforts have led us to a newer and saner method of Bible study, and have opened the way for greater progress along this line.

We regret exceedingly your removal

from the city, but trust that your new field may be one of abundant opportunity.

We take advantage of your presence in the city at this time to present you with a fountain pen, which may be useful in your editorial work, and which may serve as a reminder of the many pleasant associations in our Bible study, and of our gratitude and best wishes.

Signed on behalf of the class,
J. M. CAMPBELL,
President.

—The B. C. Permanent Loan Co. pays four per cent. interest on deposits, compounded semi-annually, withdrawable by cheque at any time. Accounts can be started with one dollar or upwards. Paid up capital over \$1,000,000; assets over \$2,000,000. Branch office 1210 Government street.

Excellent materials careful construction

Sunshine Furnace is designed for extremely low setting, thus giving good elevation to the warm air pipes, which facilitates the egress of heated air through the correct pipes.

Sunshine Furnace has maximum heating capacity so that every unit of strength is extracted from the coal, wood or coke and fully utilized.

Sunshine Furnace has maximum weight, so that as the furnace is set in cement this weight makes it absolutely secure in position.

Sunshine Furnace

is designed to be operated at the front for the simplicity and convenience of the householder, as the following illustrates:—Coal goes in through the main front door (D) and (C), ash pan comes out the lower front door (G), water is placed in the pan at the top front door (B), direct draft is operated near the water pan door (A), the dust dam

Wherever good chocolate is used it's used often, because each cupful recommends another. The wholesomeness and purity of

Ghirardelli's GROUND CHOCOLATE

recommends it to those who discriminate in the selection of their beverages.

Don't ask merely for chocolate—ask for Ghirardelli's.

Cocoa Fact No. 16

Most beverages are used for their stimulating effect, their food values being of secondary importance. Cocoa, however, is principally desirable for its nourishing qualities. It is rich in gluten and albumen, and is easily digested.

BOY DROWNED.

Edmonton, June 22.—While balancing himself on a moving log in ten feet of water, Ernest Morency, a French lad of 17 years, who lived with his parents on Whyte avenue, Strathcona, fell from the log and was drowned in the Saskatchewan at the mouth of White Mud creek Sunday afternoon.

ATHLETICS.

LONGBOAT BEATS NEBRICH.

Buffalo, June 22.—Tom Longboat, of Toronto, defeated Frank Nebrieh, of Buffalo, in a ten-mile race here last night. The Indian trailed behind Nebrieh until the end of the ninth mile, when he sprinted into a lead of 100 yards, which he maintained to the finish. Longboat's time was 53:11.4.

ANOTHER RECORD WAS BROKEN

GOOD DAY'S RACES
AT WILLOWS TRACK

Alice F. Was in Ugly Mood at Starting Post.

There was one record broken yesterday and another one equalled. Laura Clay ran five furlongs in 1:01 4-5, and John Dinne posted 1:56 for Captain Burnett's mile and an eighth, the Derby distance. If the time was correct it was a particularly fast mile and an eighth, but the form chart gives the official time as 1:57 which is equal to Joe Coyne's record of Saturday. As Dinne posted the sign "new track record" over his figures, Capt. Burnett has evidently cut a whole second off the lowest time of Saturday. Burnett jumped to the front in the first half furlong of the race and led the field all the way. Although Day Star and Goldway both challenged the winner which was weighted ten pounds heavier than the others in the race, Burnett had the speed left and won by two lengths.

Dandy Fine was the surprise of the day, winning from three favorites at 10 to 1, and putting together a nice little mint for Owner Jones. Curriculum and Nellie Racine were favorites in the race, a five furlong event, while Sid Silver opened 10 to 1 and closed at 7 to 2, owing to the support he got in the last few minutes. Silver ran last all the way. He was ridden by Brooks and it was that fact that led to the public thinking nothing else but a chance to win. Yesterday showed an instance of how people were betting yesterday and Saturday on the jockey and not on the horses beneath him. Brooks rode Saracinesca, a favorite, who got third; Day Star was another favorite over such a horse as Capt. Burnett, because the public backed Brooks on his back. The favorite ran second. Sid Silver ran last, but was backed down because the public was betting on the rider. Alice F. ran last in the sixth race, but was backed down two points from the opening because Brooks was mounted. He, however, appeared with a second and a third and the public were disappointed.

Lycurgus and Vosper landed two winners apiece yesterday. Lycurgus rode Captain Burnett, a horse which was heavily backed by all who had an eye to form, and did not rely on sentiment or would-be guessers.

In addition to a race the public got a circus before the start of the sixth race, where Alice F. did all the work that kept the horses fourteen minutes at the post before they could be got to face the barrier together. Alice F. kicked everything in reach, and when through attempted to kick Starter, Joe Weber off his perch. She was led, handled, whipped, flogged; she was led to the post and time after time awered round with her heels into another horse's flank. When the race did get away it was a scrambling start and the trouble maker, with Brooks up, ran a bad last. The boy was worn out with the horse's behavior before the race commenced.

Adena carried a lot of public money in the last race yesterday, but was again badly ridden and could not do herself justice. The horse is in good condition, and after her second to Harry Dodson Friday, over the same distance, ought to have landed the last race yesterday.

Sam McGibben at last came through, but beyond La Taranta the field was poor, and the time was 1:30 1-5 for seven furlongs. The results of yesterday's events were as follows:

First race—Four and a half furlongs. Selling. Maiden two-year-olds. Value to first \$150.	
Horse and Jockey	Op. Cl.

How Dodd's Kidney Pills Cured Mrs. Samuel Thompson's Dropsy.

Her's Was a Terrible Case and the Doctors Were Powerless to Check It. But the Great Kidney Remedy Cured It.

Holt, Ont., June 21.—(Special).—All the country side about here is talking of the wonderful cure of Mrs. Samuel Thompson of this place. She was taken sick with Jaundice, and though the doctor was called in she grew steadily worse. Her stomach was so bad she could not keep anything on it. Dropsy set in and she bloated to a terrible size. The doctor came three times to tap her, but her husband would not allow him to do it, saying that if she could not get better they might let her die in peace. Finally she dropped the doctors and tried other medicines, but they did her no good. Her leg burst and the water streamed from it. Then someone told her about Dodd's Kidney Pills and so she asked her husband to get her a box.

After taking them a while she took a bad turn. Something would come up in her throat and she would vomit. The water would just fly from her mouth. But from that time she commenced to get better and to-day she is a well woman. Dodd's Kidney Pills cured her.

Dodd's Kidney Pills cure Dropsy by putting the kidneys in condition to take the surplus water out of the blood. They always cure it.

Great Britain consumes about \$3,000,000 worth of Danish eggs a year.

Why Chestnut Motor Canoes

Cannot Sink—Cannot Upset

Chestnut Motor Canoes have Patent Air Chambers in both sides, like Life Boats. They won't tip, even if you sit on the edge must float, regardless of weight carried—they cannot sink, even if filled with water.

Chestnut Motor Canoes are staunchly built with strong, rigid, perfect New Brunswick Cedar wide ribs, and Cedar lining. Ribs are close together; the canoe is double-built, insuring enormous strength.

Entire framework covered with one seamless sheet of specially-woven Canvas. Canvas is coated with special Water-proof preparation, which fills up Canvas-Pores and dries as hard as flint, insuring dryness and tightness under any conditions. Will not cake or dry out. No fear of chafing sides against rough objects—they are entirely protected by hardwood "Rubbing Strips." Chestnut Motor Canoes are double-built, are light, yet very strong and speedy. Comfortable, roomy, clean, safe and handsomely finished—an ideal family Motor Canoe. The pleasure derived the first season easily overcomes the thought of small cost of famous Chestnut Motor Canoes.

FREE—Write to-day for descriptive Booklet, showing many styles of Chestnut Canoes—it's interesting.

RUBBER TANNING.

New Process Finds Favor With Those Interested in Waterproof Leather.

The satisfactory tanning of leather by means of rubber has for many years been regarded as a practical impossibility. It was recognized that if only a perfect product could be obtained an immense market was open for it. The problem has, however, after many years of experiment, now been solved, and patents have been granted in the following countries, viz: Great Britain, United States of America, Canada, Mexico, Argentina, France, Russia, Belgium, Austria, Hungary, Japan, India, Norway, Sweden, Denmark, Italy, Spain, Portugal, Transvaal, Cape Colony, Natal, Rhodesia, the Commonwealth of Australia and New Zealand, the whole of which patents, together with any further improvements thereon by the inventors, are to be acquired by the company, the intention being that the company shall be the parent company controlling the world's rights wherever taken out.

The invention consists of a process for permeating hides and skins with pure rubber, the result being the substance known as rubber-tanned leather, a material which is practically waterproof and which, while incomparably more durable than the ordinary leather, is at the same time, soft and pliable, qualities which remain its distinguishing features even after immersion for lengthened periods in water, and render it available for the manufacture of many articles for which ordinary leather is wholly unsuitable or unsatisfactory. Leather so treated has been abundantly tested and has proved to be suitable for the manufacture of many articles of domestic consumption.

The saving in cost by the use of rubber-tanned leather may be exemplified in the case of boots where, owing to the great durability of the material, repairs will be largely reduced. For hydraulic purposes, the saving is even greater. With ordinary leather the cost incurred in labor and stoppage of machinery in changing or renewing hydraulic leathers is considerable. With rubber-tanned leather, by reason of its durability, such changes or renewals would require to be effected much less frequently. For machinery belting continuously in steam vapor or under moist conditions rubber-tanned leather is invaluable; even at a relatively high price it would be cheaper than the best leather now on the market. Another advantage claimed is the toughening and strengthening of sheep, rabbit and other skins and the poorer portions of bullock hides, such as the flank, neck and shoulders, which are by the rubber-tanning process rendered as durable as the best portions of barked leather and their value largely increased. An important factor in the case of rubber-tanned leather as compared with barked leather is the very short period of time required to produce the former, the result being that there is no locking up for lengthy periods, as in the case of barked leather, of large amounts of capital.

VICTORIANS AS "KNOCKERS"

TELL REVISION COURT A HARD-LUCK STORY

Would Sell Property for a Song, They Say, but Court is Sceptical.

If one had the ready money he could pick up some splendid bargains in real estate by attending the court of revision, which opened this morning. For this is the one day in the year when some property-owners in Victoria, including large ones, are not above "knocking" the ones, are not above the court of revision to complain of the assessor's figures, tell how bad the real estate business is, how slowly property is moving in Victoria, what serious defects their property possesses and how glad they would be to sell for a mere fraction of the sum the assessor says their real estate is worth.

The offer to sell is, of course, a bluff, and one that is apt to be called sometimes. It is one, too, that never appeals to the members of the court, who take it for what it is worth.

It is a tribute to the ability and fairness of City Assessor W. W. Northcott that out of some twenty thousand items on the assessment roll for 1909, there are only sixty-two appeals, and in almost everyone of these heard this morning his assessment was confirmed by the court.

Ald. Henderson is chairman of the court and the other members are Ald. McKeown, Stewart, Turner and Raymond. There are also in attendance City Assessor Northcott, Wm. Scowen, his deputy, and City Solicitor Mann.

Senator Macdonald appealed from the assessment on his property in James Bay. The assessments were as follows: Mrs. Macdonald, ten acres of "Armadale," \$35,000 on land and \$1,000 on improvements; Mrs. E. M. Fleet, \$2,500 on land; Ernest M. Fleet, lot on Fernside street, \$1,100; Senator Macdonald, thirteen acres on Montreal and Niagara streets, \$30,810 on land.

In regard to the homestead Senator Macdonald said it had been raised from \$25,000 to \$32,000. Although not for sale the highest offer he had ever received for the property was \$5,000. Ald. Raymond pointed out that this assessment only figured out at about \$400 a lot.

Senator Macdonald admitted that possibly, if sub-divided, the land might sell for that.

The assessor, in reply to the court, gave the assessment of lots in the vicinity. On Simcoe street they are \$500, on Oswego street, across from the senator's property, \$700, on Dallas road, east of Oswego, from \$1,200 to \$2,000, and on Montreal street quarter acre lots at \$1,000.

The chairman expressed the opinion of the committee that most of the property was being valued too high.

The big tract lying between Montreal, Niagara, Oswego and Ontario streets, containing twelve and 84-100th acres, is assessed for \$30,810, or about \$400 per lot. The senator admitted that the property was lying idle, being a sort of nest egg, although an expensive one, but intimated that it would be sub-divided before very long.

In every instance the court sustained the assessor's valuation. The senator asked how long he had to appeal to the courts.

City Solicitor Mann did not think he had any appeal, but told him he had better take advice from his lawyer, and repeated this to each of some half-dozen questions the senator put.

There was an appeal against the assessment of \$37,000 on the Mahon building, but no one appeared. The court held that this was a low assessment on the property and sustained it.

E. H. Anderson appealed from the assessments on thirty-nine separate blocks of property in various parts of the city. Several of them, he swore, he could not sell at the figures put upon them by the assessor. For property on St. Charles street he considered \$2,000 an acre too high. The adjoining property is assessed even higher and the figures stand. After the court had sustained three items Mr. Anderson withdrew, saying it was no use saying any more if he could not get the land.

There has been an assessment of \$500 on Mrs. Flew's greenhouse for the last two years. This was objected to on the ground that, while this was the cost of them, in England it is customary to assess to the extent of twenty-five per cent. only. The court held that there was no over-assessment and sustained the assessor.

J. S. McAdam was assessed \$6,000 on land and improvements at the corner of Johnson and Vancouver streets. The court took \$400 off the improvements. The assessor objected to any reduction on the land, and when Mr. McAdam declared that he could not sell the land at the sum put on it he said he could get a purchaser inside five minutes. He said so, within a few seconds, and the deal was put through there and then.

Robert Mason got a reduction of \$1,000 on lot 73 Fernwood, on Mount Tolmie avenue, from \$3,500 to \$2,500. Lot 72 stands at \$2,000.

R. Matheson, for the north part of lot 29, block 20, Coburg street, got a reduction on land from \$80 to \$400. Mrs. Hunt, on the south part of lots 4 and 5, block 61, Spring Ridge, secured a reduction of \$100, owing to its being near property.

D. McIntosh got no reduction on several lots in blocks 2 and 6, section 8A, and left saying it was a waste of time to come before the court.

Mrs. M. Walker, Simcoe street, was given a reduction of \$100 on land and \$300 on improvements.

Watson Clarke appealed against the assessment of \$25,700 on 45 acres in Oaklands. He considered that he should be bonussed for keeping the place as a farm, and reducing the danger from fire, but he could not get the court to look on any reduction with favor. As he was leaving he asked how long he had to appeal to the Supreme court, and was reminded by

THE HOME PHYSICIAN.

Some Hints to Keep People Well.

Ninety per cent. of the ordinary sicknesses are caused by the bowels, the kidneys or the skin.

As you know, these organs are the great purifiers of the human system. They filter impurities from the blood and pass them from the body. If the kidneys, bowels or skin weaken or get tired out or fail to do their regular work—then the blood becomes laden with impurities and poisoned. If it be the fault of the kidneys, then the skin is overworked in its efforts to throw off the excess of urea or waste matter. The glands become inflamed and enlarged—pimples break out—and there may be a rash or eczema of the skin. If it is the fault of the skin, then the kidneys are strained by overwork and there is constant pain in the back, dizziness, neuralgia, headaches and rheumatism. If it be the fault of the bowels, the blood is poisoned, the skin and kidneys weakened, the stomach upset, and, of course, there is Constipation and Biliousness.

How easy it is, then, to be free of all these troubles!

"Fruit-a-tives" is not merely a remedy for any one of these troubles but a cure for all. "Fruit-a-tives" acts on the skin, the liver, and the kidneys. "Fruit-a-tives" keeps all these great organs well and strong, and thus insures the blood being always pure and rich. With "Fruit-a-tives" in the house to take at the first sign of not feeling well, you need not have a day's sickness. 50c. a box, 6 for \$2.50, or trial box, 25c. At dealers or from Fruit-a-tives Limited, Ottawa.

Seattle, Wash., June 22.—Igorrotes done in clay, or rather, being done in clay, is a late and altogether unexpected feature of the Fair Streak at the Alaska-Yukon-Pacific exposition. It was unexpected by the government agents who supervise the village, and to say that it was unexpected by the Igorrotes puts it mildly. It was not only unexpected, but wholly an unwelcome innovation—unwelcome to the extent that until they were subdued by a threat of the wrath of the "Great Anito" at Washington, D.C., they refused to stand for being made the inmates of numerous plaster of paris masques.

From many standpoints the government officials at the national capital consider the Igorrotes the most interesting and, from the ethnological standpoint, the most valuable of the many peoples of the Philippines. Therefore the official students of things ethnological at Washington city decided suddenly that the Smithsonian Institution should have plaster of paris and clay models of every member of the band on exhibition at the Seattle fair.

Washington telegraphed on its orders to this effect to the government commission at the exposition, and the commission hired a corps of capable sculptors to do the work. It was then the fun began. The sculptors, under the advice of the agents in charge of the village, selected as their most likely subject Falonglong, or Antero. It was explained to Antero that all

MARVELS OF PHOTOGRAPHY.

Photographing the invisible sounds well, but it is rather an unfortunate description. Photography of stars which the most powerful telescopes cannot bring to sight has long enough been practiced; and even the ordinary cinematograph takes movements that are too quick to be seen by the naked eye. Pictures of animals as they run are well known. But there has been no machine up to the present which will take five thousand pictures a second, so that the track of a rifle bullet or the revolution of a fly-wheel may be followed, though they are so swift that the wheel appears at rest. These wonders are now to become possible by a new machine exhibited at the Dresden photographic exhibition by the Military Technical High School of Charlottenburg. Perhaps at last we may get some light on the mysterious problem of the flight of birds, which has puzzled so many naturalists and mathematicians.—Saturday Review.

</

LIGHTHOUSE ON TRIANGLE ISLAND

PRELIMINARY WORK HAS COMMENCED

Quadra Met Party of Naturalists-Who Have Made Collection of Birds' Eggs.

Steamer Quadra has returned from Triangle Island and West Coast points with Resident Engineer Killeen, who has been initiating the work for the new lighthouse and inspecting the progress of the works at the other points.

At Triangle Island the position for the lighthouse was located at a point 600 feet above the sea. A tram line 1,750 feet long was also located which will be built for the purpose of carrying building material and supplies to the summit. This will be worked by a hoist and will be a permanent work which will be useful for the station after it is in operation. A gang of men were left at the island to build a boat house and store house, and the work will be pushed ahead as rapidly as possible in order that it may be completed before the bad weather of the winter season.

The work on the new concrete tower at Estevan is going on well, and the German improvements are well in hand. Very soon these stations will be well equipped and in operation.

At Triangle Island the party of naturalists were met. There were four in the party, including W. F. Burton, Warburton Pike and two friends. They were towed over to the island by a sloop, and at the time the Quadra left were waiting for the sloop to return to tow them to some of the other islands between Triangle and the Mainland. They had made a large collection of seabirds' eggs, and had found one exceedingly rare specimen.

The party reported that there were millions of birds on the island, and around the shores immense sea lions sported in the waters. These latter were sometimes as big as a horse. The men on the Quadra brought down a little sea lion which they picked up on the shore. It is now aboard the Quadra.

Before the naturalist party crossed to Triangle Island they visited Cape Scott. They say that the settlers who went from there to Winter Harbor, on Quatsino Sound, left behind them fine houses and gardens. Shade trees had been planted, and in some cases lands had been reclaimed by dyking. One or two of the original settlers remain, and one of these has a large herd of cows.

PRINCESS BEATRICE HAS BEEN CHARTERED

Jas. Moore and Party Going to Queen Charlotte Islands and Prince Rupert.

James Moore, of Seattle, has chartered the steamer Princess Beatrice for himself and party to make a trip to Queen Charlotte Islands and Prince Rupert. The vessel left here this afternoon for Ladysmith where she will coal before going to Vancouver. At the Terminal City the steamer will take on the party consisting of between ten and twenty, going first to Prince Rupert and then to Skidegate and other Queen Charlotte Island points.

The party going north have interests up there which they wish to look into as well as making a pleasure trip. The vessel will not carry any other passengers but will take freight to northern ports.

LIFE TERM FOR MURDER.

Sacramento, Cal., June 22.—Flord V. Carter, who killed his wife, Verna Carter, in this city last January, was today sentenced to life imprisonment in San Quentin by Superior Judge Hughes. This was the extreme penalty under the verdict of a second degree murder returned by the jury.

PRINCESS ROYAL.

Steamer Makes Fine Trip to Skagway and Why Ports.

After going to Ladysmith for coal, steamer Princess Royal arrived at her home port last evening. She had a good passenger list each way, but the trip was wholly without incident.

Lord and Lady Glenwilliam, who were passengers each way, made a trip to the summit of the White Pass and Yukon railway while the steamer was in Alaskan waters. They were accompanied by the manager of the line, R. W. Berdick.

The Royal will relieve each of the steamers on the triangular run before again sailing for the North on Friday night.

GOVERNOR-GENERAL TO TRAVEL ON LILLOOET

Hydrographic Steamer Will Carry Earl Grey North This Summer.

Steamer Lillooet of the Hydrographic department is being prepared for the use of Earl Grey when he visits this coast. The Governor-General is expected here about the end of July, and when on the coast he intends making a trip to the Yukon. For this purpose he will use the Lillooet which will be placed at his disposal for the time he is here.

While the Lillooet is a slow vessel she is extremely well fitted up and will make an ideal yacht for the occasion. She is a seaworthy craft, and will give the Governor an opportunity of viewing some of the scenery which he could not visit on the ordinary steamers which run to those waters.

The work of preparing the boat for his excellency is in the hands of W. J. Stewart, chief hydrographer, who is now at Prince Rupert making the necessary arrangements.

Earl Grey has never before visited the northern territories of Canada. In doing so he is carrying out a programme which he has drawn up of visiting every province and territory in the Dominion before his term of office expires.

SHIPPING REPORT

NEW RECORD.

Passengers from New York by Mauretania landed in London in Five Days Eight Hours.

Liverpool, June 22.—The Cunard liner Mauretania has established a new world's record for carrying passengers between New York and London. She arrived at 10.15 last night, and thus accomplished for the first time of disembarking her passengers on Monday night, after leaving New York on Wednesday. Trains were in waiting, so that the actual time between New York and London will be five days eight hours.

LARGE CARGO FROM MEXICO

LONSDALE BROUGHT TWO THOUSAND TONS

Large Shipments Made From Europe by Tehantepec Route.

Over two thousand tons of freight arrived yesterday evening on the steamer Lonsdale. This freight was all from Europe and came over the isthmus of Tehantepec and up the coast. A large part of the cargo was whiskey and other spirits, several hundred tons being of the beverages which are reputed to have a cheering effect. Much of the other freight was steel plates and points. There was also a large quantity of settlers' effects. Something over 400 tons will be discharged at this port, the remainder going to Vancouver.

The cargo brought on the Lonsdale is the largest yet carried. Every steamer that has arrived recently has had on board a few hundred tons of European freight, but this consignment is unusually large and shows that the route is growing in favor and that a large business can be done if it is well handled. The charges are much lower than by the direct route, and the time taken is not at all long.

The Lonsdale made the fastest run to Mexico and back on record. She was away 20 days 4 hours, and of this seven days were spent at Salina Cruz, the southern terminus of the route. There was fine weather both ways, and the officers of the ship were in high glee at the record they had made.

The steamer brought four passengers: L. Jackson, who is on his way to Idaho; Harry M. Blain, going to Calgary; A. W. Williams, of Victoria; and E. H. B. Girard, who is on his way to Nelson, B. C. None of these men are very much enraptured with the country except from a tourist standpoint.

A movement is on foot in the Mexican cities to induce tourist travel through that part of the country. Salina Cruz is said to be one of the healthiest cities in the world, and there are a great many interesting things to see along the coast and in the interior of Mexico. It is proposed that the companies shall give round trip rates for tourists and make suitable provision for carrying them. No doubt if this is done and the country advertised sufficiently a large travel will result.

WORLD'S GUNNERY RECORD.

Twelve Hits With Twelve Shots in Forty-Five Seconds.

On the arrival of the destroyer Avon at Plymouth a remarkable shooting achievement by Petty Officer Owens, of this vessel, was reported, says the London Chronicle. During practice in Brodich Bay, Scotland, when the Avon was steaming at full speed, Owens, firing with a twelve-pounder gun at a target 14 ft. by 8 ft., at a range of a thousand yards, made twelve hits out of twelve shots in 45 seconds.

This is a world's record.

It is not surprising that, as the report adds, "the vessel was in a constant state of vibration during the firing."

One of the previous latest records, which this new achievement surpasses, is that of the cruiser Argonaut, of the Portsmouth division of the Home Fleet, on completing her gun-laying tests last June. The gun's crews fired 137 rounds and registered 105 hits—an average of 5.5 hits a minute—with 5-inch quick-firing guns.

The best gun, for which at the time a record beating the previous best of the Good Hope was claimed, fired 11 rounds and made 11 hits in 14 seconds. Chief Petty Officer Sparshott being the layer.

The shots were fired under strict service conditions at 1,400 yards' range on a target measuring 10 ft. by 8 ft. The Good Hope's record was 104 hits in 14 seconds. In August, 1907, the first-class cruiser Berwick made a record with her eight 12-pounders, averaging eight hits a minute. The best gun fired nine hits in 45 seconds, and made nine hits.

Fire-damp is the ordinary name for the carburetted hydrogen which issues from "blowers" or fissures in coal seams. It is inflammable, and when mixed with air in certain proportions, is highly explosive. Its ignition is attended by the danger of an attendant explosion of coal dust.

One of the finest characteristics of Seal Brand Coffee is its rich, full body.

Thin and watery coffee is unknown in households that use Chase & Sanborn's Seal Brand.

In 1 pound and 2 pound tin cans. Never in bulk.

TO-MORROW'S RACE ENTRIES.

The following are the entries for tomorrow's races at the Willow track:

1st race—5 furlongs; selling; fillies and mares; 3 year olds and up:

4513 Taunt 109
4491 Josie S. 109
4498 Lovely Mary 107
4496 Bema 109
4505 May Pink 109
4481 Calla 109
4502 Water Thrust 109
4492 Bay Carter 109
4496 Maid McCall 109
4505 Evelyn K. 98

2nd race—5 furlongs; purse; 2 year olds:

L.A. (680) — Chester Krum 114
(4423) Virgie Cassie 115
4499 Mr. Hose 105
4499 Fire 114
(4471) Napa Nick 115
(4490) Metropolitan 109
4471 Lewiston 107
Chester Krum and Virgie Cassie coupled as Schilling entry.

3rd race—6 furlongs; selling; 3 year olds and up:

4504 George Kilborn 113
4468 Pacifico 113
4477 Mechant 113
(4498) Liddington 114
4498 Yankston 109
4486 Silver Sue 111
L.A. 763 — Song of the Sea 108
(4515) Dandy Pine 101
(4493) Irish Mail 103
1507 Roy Junior 111

4th race—1 mile and 70 yards; the Nanaimo handicap; 3 year olds and up; purse \$300:

(4501) Ed. Ball 114
4477 Edwin T. Fryer 109
4489 Johnston 104
4486 Barney Oldfield 116
(4435) Monvina 106
(4514) Capt. Burnett 112
4501 Fantastic 100

5th race—6 1/4 furlongs; selling; 4 year olds and up:

4576 Ray Bennett 106
4494 Mike Asheim 109
4498 Rama 114
4451 Col. Bronston 111
4491 Ripper 111
3582 Lady's Beauty 109

6th race—1 1/4 miles; selling; 3 year olds and up:

4514 Goldway 102
4508 Plavigny 102
4512 Little Minister 102
4514 Joe Coyne 102
4514 Ira 102

—Apprentice allowance.

The time used in Pacific Standard, for the great Meridian west. It is counted from 0 to 24 hours from midnight to midnight. The figures for height serve to distinguish high water from low water.

MOUSTACHES AND LOVE.

"If a good-looking young man," remarked a writer in a Berlin journal, "suddenly grows a wild and bushy beard, be sure he loves a woman who cares most for domestic joys. That is why one sees more full beards in Germany than anywhere else."

"If another man appears unexpectedly wearing a small upturned moustache of melancholy aspect, he surely loves a woman who adores classic art. But if a man, formerly famed for his beauty because of his beard should appear clean-shaven, he has been captured by an American lady. If he wears a toothbrush moustache, which doesn't become him at all, he either admires an Englishwoman or a woman who does not on everything English."

ELOPE TO ESCAPE WRATH OF CHILDREN

Willows, Cal., June 22.—While lovers usually elope to escape parental wrath, Mrs. Mary Adelia Robings slipped away from her home near this city to wed George Washington Yocum because her romance was frowned upon by her children. Mrs. Robings, who is now Mrs. Yocum, is 71 years of age, while the groom confesses to 69 years.

Late Friday Yocum hitched up the family horse and drove to a secluded spot on the Robings' farm. Here he was joined by his bride-to-be and they hurried to this city, where they were made man and wife. This is Yocum's fifth marital venture, while his bride has been married twice before.

THROAT SWELLED

Voice Disappeared. Terrible Cough. Agonizing Headache.

The Trying Experience of a Woodstock Man Who Nearly Died With Grippe.

People that allow "grippy" colds to run on unheeded often find themselves in the perilous predicament that nearly cost Marx M. Melanson his life.

"It was a long drive through the rain that started my cold. I didn't pay much attention to it thinking it would pass away. I soon experienced a stabbing tightness in my chest and throat. This grew quite intense and my throat swelled below the ears and it hurt to turn my head. A terrible dry, racking cough kept me sleepless and miserably sick, and my head felt like bursting. A neighbor bought me Nerviline and rubbed it in copiously over my throat and chest, and advised me to use it as a gargle and take it in hot water every four hours. I did this and got relief—the soreness left my chest and I put on a Nerviline Porous Plaster. Although nearly in despair when I started Nerviline, it was no time before I was well and on my feet again. Such remarkable power for breaking a cold. I never thought of being found in one remedy. Nerviline saved my life and I consider it should be in every home."

Not only will Nerviline break up colds and prevent pneumonia, but it will also cure Rheumatism, Earache, Toothache, Lumbago and Sciatica. Wherever there is pain or inflammation, Nerviline will cure it quickly.

Beware of substitutes—get Nerviline only, large 25c bottles at all dealers.

The jungle fowl of Australia construct their nests in the form of great mounds, 15 ft. high and 100 ft. round. These edifices, which are made of leaves, grass, and twigs, often weigh as much as five tons.

New Zealand has an available coal supply of 1,200,000,000 tons, of which not more than 20,000,000 tons have been touched.

Woman's True Friend

Experimenting with new and untried medicines is foolish, and often dangerous. It would take a medicine more than forty years, to prove itself so universally good as Dr. Pierce's Favorite Prescription. During all that time it has been woman's favorite medicine—a restorative tonic, uplifting and invigorating the nervous and discouraged and giving them the final touch of perfect health.

Women use Dr. Pierce's Favorite Prescription in preference to all other advocated medicines for it contains no alcohol or habit-forming drugs—it is not anything like advertised, secret, or patent medicines—does not claim to be able to do impossible things.

THE ONE REMEDY for women devised by a regularly graduated physician of vast experience in woman's ailments, and adapted to her delicate organism.

THE ONE REMEDY good enough that its makers are not afraid to print its every ingredient on its outside wrapper.

You can't afford to allow yourself to be over-persuaded into accepting any secret nostrum as a substitute for this honest square-deal non-secret medicine. Don't do it. No honest druggist will attempt to cheat you in this way. He who does should be rebuked and avoided. Doctors prescribe Dr. Pierce's Favorite Prescription for their worst cases because they know what it contains and know its ingredients to be of the very best.

It's well now and then to gently cleanse out bowel germs that breed weakness, cause foul breath, loss of appetite, dizziness and headache. Dr. Pierce's Pleasant Pellets keep bowels sweet and clean. Recommended by druggists because of their purity, goodness, and active gentleness.

World's Dispensary Medical Association, R. V. Pierce, M. D., Pres., Buffalo, N. Y.

They All Come Here for Clothes

From all walks of life men come here for clothes. When the Business or Professional Man wants a good looking, durable, comfortable, well-cut and well tailored Suit he makes a selection from our \$22, \$25 or \$30 lines.

When the dapper Young Dresser wants "the thing," cut and tailored from a smart fabric with all the kinks and quirks, he makes a selection from our \$16.50, \$18 or \$20 lines.

We feel that we're justified in saying—"They all come here for clothes," knowing that here they get the best.

SOCIAL AND PERSONAL

Hugh Gilmour, of Vancouver, is again in the city, this week on a business trip.

Mrs. F. S. Barnard, Esquimalt road, is the hostess of a very smart luncheon to-day.

Mrs. W. McDowell, 503 Superior street, is entertaining Mrs. Alex. Urquhart, of Comox.

The officers' mess of Work Point barracks were the hosts of a very jolly tennis tea yesterday.

Mrs. A. Ellis, View street, is not receiving to-day, and will not receive again until the autumn.

Mr. and Mrs. M. A. Wyldie went to Seattle last evening. They will visit the A.-Y.-P. fair for some days.

Miss Grace Thompson leaves to-day for Winnipeg, and on her arrival there will be married to Mr. C. Burnett.

Mrs. Boulton, A.R.C.M., has issued invitations for a piano recital to be given by her pupils in Watt's hall on Saturday afternoon.

A party from the interior, who arrived in town yesterday, includes Mr. and Mrs. J. E. Spence and M. J. Milligan of Greenwood, B. C.

Sir Richard and Lady Musgrave and Captain and Mrs. Chaplain, who have been making an extended stay with relatives in town, left on Saturday for Seattle, en route for England.

Mrs. W. Waldron, of Ballyfallon House, Co. Meath, Ireland, has arrived on a visit to her brother, Mr. E. C. Smith, assistant city treasurer. Mrs. Waldron is accompanied by her second daughter, Louise.

Mr. Arthur Blakely, who has been in town superintending the musical examinations in connection with the Toronto College of Music, left last night on the Charming for Vancouver, en route for Toronto. He has been accompanied during his stay here by Mrs. Blakely, a very charming woman, well known in musical and literary circles in the east. During their trip from the east Mr. and Mrs. Blakely stopped at a great many towns and cities en route, but were specially impressed with the charms of Victoria.

The King's Daughters of Metchoin will hold a garden party at "Glen Lea" Esquimalt Lagoon, the home of Mr. G. Heatherbell, on Thursday July 1st. Dominion Day, from 2 to 6 o'clock. A musical and literary programme will be given. Luncheon or boat can be secured at Esquimalt at moderate cost to bring parties across to the lagoon. Boats can come through lagoon entrance—it is free, permit and land at Glen Lea boat house or parties can land on spit, whence Mr. Heatherbell will convey them to Glen Lea. Refreshments will be served by the Seaside Circle. Boats will be provided for those who wish to fish in the lagoon, so crab-catching, etc. All are cordially invited.

A musical and literary programme will be given. Luncheon or boat can be secured at Esquimalt at moderate cost to bring parties across to the lagoon. Boats can come through lagoon entrance—it is free, permit and land at Glen Lea boat house or parties can land on spit, whence Mr. Heatherbell will convey them to Glen Lea. Refreshments will be served by the Seaside Circle. Boats will be provided for those who wish to fish in the lagoon, so crab-catching, etc. All are cordially invited.

Mr. Arthur Blakely, who has been in town superintending the musical examinations in connection with the Toronto College of Music, left last night on the Charming for Vancouver, en route for Toronto. He has been accompanied during his stay here by Mrs. Blakely, a very charming woman, well known in musical and literary circles in the east. During their trip from the east Mr. and Mrs. Blakely stopped at a great many towns and cities en route, but were specially impressed with the charms of Victoria.

The King's Daughters of Metchoin will hold a garden party at "Glen Lea" Esquimalt Lagoon, the home of Mr. G. Heatherbell, on Thursday July 1st. Dominion Day, from 2 to 6 o'clock. A musical and literary programme will be given. Luncheon or boat can be secured at Esquimalt at moderate cost to bring parties across to the lagoon. Boats can come through lagoon entrance—it is free, permit and land at Glen Lea boat house or parties can land on spit, whence Mr. Heatherbell will convey them to Glen Lea. BOOM BREAKS MOORING.
Dredge, King Edward Damaged by
Logs in Fraser River.

New Westminster, June 21.—A large
boom of logs ran amuck along the
waterfront yesterday morning and af-
ternoon, doing damage to the amount
of several hundred dollars before it
was finally sent on its way down the
river.

The boom had originally been
moored on the north bank of the Fra-
ser, near the mouth of the Pitt. It
was broken away by the rising of the
water some time early in the morn-
ing, and started on its career down
the river. By the time that the boom
reached the government wharf at Sap-
erton it was beginning to disinte-
grate, and it was the loose logs that
did the most damage. These ground
all around the hull of the dredge King
Edward, and before they could be
sheered off completely destroyed the
suction pipes and other pieces of me-
chanism in the bows.

By means of a number of tugs, the
boom with its attendant logs was
pulled off from the dredge. It then
floated on down to the bridge, where
it became hopelessly tangled in the
piers. The solid stone piles were little
damaged by the logs.

By this time the boom had almost
completely broken up, and it was im-
possible to tow it into shore. It was
consequently allowed to go down the
river. Some of the loose logs took the
North Arm and got hung up on the
bridge there, causing some anxiety.
The number of those that got caught
upon the Lulu Island bridge was,
however, insufficient to do any dam-
age.

SUNDAY BY-LAW

FINALLY PASSED

(Continued from page 1)

The city solicitors wrote what Ald. Henderson described as a history of the proceedings in the Fairall brewery matter. In reply to a question City Solicitor Mann stated that the injunction was asked for because the Silver Spring Brewery, Ltd., had not asked for the street lines before proceeding to rebuild. A survey of the street had been made at its new width of 50 feet and been registered.

Ald. Turner pointed out that there were no street lines to give when the company began to rebuild on the site on which the Fairall building had been standing for years.

Ald. Henderson repeated his point of view, that it would be a great mistake to spend thousands of dollars on widening the street, and perhaps be mulcted a very large sum of damages if the brewery company persisted in suing.

Ald. McKeown objected strongly to allowing the company to rebuild on the street.

Council decided to file the letter from the solicitors and allow the company to proceed with their building.

The following members of council were appointed as a court of revision:

Ald. Henderson, McKeown, Turner, Stewart and Raymond.

Five citizens as appointees of the council on the board of directors of the Royal Jubilee hospital were named. They are: R. S. Day, D. E. Campbell, J. A. Mara, H. B. Robertson and F. W. Vincent. James Foreman retires by his own desire.

MONEY RETURNED.

L. Dodd Charged With Obtaining Money Under False Pretences Makes Restitution.

Lochart Dodd has returned to S. H. Scott the sum of \$7,000 which the latter paid him on an alleged property deal and in connection with which Dodd was arrested in Vancouver where he went as soon as he received the money. Dodd is now out on his own recognizance awaiting the result of an application to the attorney-general to withdraw the action.

Dodd was remanded yesterday on application made by Frank Higgins. This morning when the case was called Mr. Higgins said the money had been repaid. He also told the court the party who owned the farm that Scott was said to have purchased did really own the farm, and that he had given some person an option on it. Under the circumstances he thought the charge against Dodd could not be made to stick, and also wished the court to understand the law had not been put into effect to force restitution. Bail was first fixed by Magistrate Jay when the remand bill to-morrow was granted at \$500. Accused said he could not find it, and after an interview between the magistrate, the accused and the chief of police, the magistrate waived bail and allowed accused to go on his own recognizance.

NEW GRAND THEATRE

One of the best shows the theatre has ever had, was the verdict of two capacity houses at the New Grand theatre last night, when the crowds streamed out on to Government street after having cheered in a bolly Carita Day and her dancing boys. Miss Day made one of the biggest triumphs Victoria has seen in vaudeville and her two assistants were cheered and applauded before their turn was half through.

Mabel Carey and Jack Van Epps were in good form with their delightful singing and piano playing act. She sings three songs and gives the Derby winner recitation. Van Epps plays her accompaniments and sings during the intermissions, as her changes of costumes are being made. Her songs are all good and her reception was flattering. Van Epps is a distinctive piano player and has a couple of songs that take well. The turn is a good one.

"The Unexpected," the racing drama by Wyatt and Miss Rice, is a winner of \$50,000. The man receives a jade bracelet full of mystic power from India and then follows the funny part of the horse racing business. How many jade bracelets are there at the Willows? The remainder of the programme is excellent.

The death occurred yesterday at the Royal Jubilee hospital of John Joseph Cowley. Deceased was a native of England and was 79 years of age. He has been a resident of this city for a number of years and for a time lived on View street. Some time ago he turned over his house and lot on View street to the city council on condition that they look after him in his declining years. The remains have been removed to the B. C. Funeral Home for interment. The funeral arrangements will be announced later.

Keep in Touch With New Arrivals

KEEP IN CLOSE TOUCH with the new arrivals by making frequent visits to this store. Purchases made by our Mr. Otto Weiler, when on his recent Eastern purchasing trip, are now arriving, and if you would follow the latest in China, Glass, Furniture, etc., you should make frequent visits to this store. You are welcome to come often and spend as much time as you wish in looking.

TREAT YOUR BATHROOM TO ONE OF THESE FINE RUGS

THESE JAP RUGS of cotton, in pretty blue and white design, are splendid for bathroom use or for the Summer bedroom. Cost so little that every bathroom should have one. Then, for bedroom use they are delightful and you should put one or more in your bedroom. We also have same styles in green and white. Come in and see these—values are excellent.

Size 18 x 36 in., each \$1.25
 Size 24 x 48 in., each \$2.00
 Size 30 x 60 in., each \$3.00
 Size 36 x 72 in., each \$4.50

50c BUYS AN EXCELLENT MATTING MAT, 3x6 FEET

A REVERSIBLE MAT OF SPLENDID QUALITY SUITABLE FOR A VARIETY OF USES

THESE MATS are made in same manner as the better grades of Jap matting. The designs are very attractive and the mats are reversible, giving double wear. Colorings are pleasing. These are suitable for a variety of uses, such as wall panels, cosy corner backs, bedroom mats and for camp use. We don't think you'll ever be offered better values. Mats are 3 x 6 feet and are priced at, each, 50c.

We also have two sizes in squares of the same material—
 Size 9 x 9 feet, each \$3.50
 Size 9 x 10 feet, each \$2.75

MATTRESSES THAT REST YOU

An Excellent Range Suitable for Camp or Home—Many Prices.

WHETHER you want a mattress for your home or for the camp or for the Summer Cottage, you cannot do better than choose from this stock of mattresses. Every possible requirement in mattresses may be filled from our stock and special sizes or special styles may be made to order promptly. Prices on full size range from \$3.75
FULL SIZE OSTERMOORS \$15

SUMMER MATTING STYLES

THERE is no floor covering so cool, clean and altogether delightful as this Fibre Matting. Don't confuse it with the China and Jap Matting and their disagreeable odors. Fibre Matting is so superior to these that it is rapidly displacing them. This matting is sewn like carpet and is much more attractive in design than any other matting. It may be washed and it is also reversible, giving double service. The merits, however, can better be shown in the material itself, so come in and see it. Priced at, per yard, 75c to 50c

We also have some excellent squares in this same material—Art Designs.

HERE IS THE BEST FOLDING CAMP FURNITURE

THE "GOLD MEDAL" BRAND—NOTHING BETTER MADE ANYWHERE

THE FURNITURE for the Summer camp should be light and strong and of the variety that folds very compactly. All these qualifications are combined in the furniture we offer and in the Gold Medal—the principal line handled by us—we offer you the best folding camp furniture on the market. Gold Medal is steel reinforced and is guaranteed. No other make folds so compactly and is so easily "packed" from camp to camp. We show many pieces in this and invite you to see the special features. Here are a few items:

FOLDING CAMP STOOLS, at 60c
 FOLDING RECLINING CHAIRS \$1.50
 FOLDING CHAIRS, at, each \$1.00
 FOLDING CAMP BEDS, \$4.50 and \$3.00
 FOLDING ARM CHAIRS \$2.25
 FOLDING TABLES, at, each \$4.50

PANTAGES THEATRE.

Harry Lauder's Imitations Are Excellent This Week.

You can get a very good line on the characteristics of Harry Lauder, the greatest vaudeville artist living, by attending the Pantages this week. One of the Scotch Macs is giving this line, and the imitation is excellent.

The new show this week is every whit as good as the advance notice said it would be and consequently the Pantages has the best show in several weeks.

The Scotch Macs lead the bill with singing, dancing and the pipes and seem to put delight into the heart of every Scotchman in the audience last night and there were hundreds of them. The balance of the show with the Barrette in a farce comedy, "The Lady's Doll," the Fishers, contortionists; Dun-can Ross, comedian, and the regular Pantages attractions form a very good show.

Secretary Doris, in discussing the objects of the meeting, said: "We are simply endeavoring to formulate some effective plans for remedying the conditions which exist as a result of the constant and continuous extension of the envelope business of the present United States government, which is selling stamped envelopes at prices which are almost ruinous to the trade, and we believe that this competition on the part of Uncle Sam is unfair and unjust."

Mr. Doris denied that the organization was the nucleus of a trust or a combination to control prices.

Buffalo, June 22.—How to stop Uncle Sam from conducting such an extensive envelope business is the problem on which the American Envelope Manufacturers' Association is working here.

The association was organized recently in Chicago and yesterday's meeting was the first since organizing. A large number of manufacturers were present.

Albert Nordheimer, manager of the Nordheimer Piano & Music Co., of Toronto, is in the city on a short visit. This is Mr. Nordheimer's first visit west of Winnipeg, and he expresses himself as not only surprised at the beauty of the country, but the wonder-

ful development noticed on every hand.

Mr. Nordheimer is very favorably impressed with both Victoria and Vancouver, and his stay in both of these places has been made most enjoyable by his frequent meeting of old friends.
